Home Care Fault Lines Cynthia J. Cranford, 2020-06-15 In this revealing look at home care Cynthia J Cranford illustrates how elderly and disabled people and the immigrant women workers who assist them in daily activities develop meaningful relationships even when their different ages abilities races nationalities and socioeconomic backgrounds generate tension As Cranford shows workers can experience devaluation within racialized and gendered class hierarchies which shapes their pursuit of security Cranford analyzes the tensions alliances and compromises between security for workers and flexibility for elderly and disabled people and she argues that workers and recipients negotiate flexibility and security within intersecting inequalities in varying ways depending on multiple interacting dynamics What comes through from Cranford s analysis is the need for deeply democratic alliances across multiple axes of inequality To support both flexible care and secure work she argues for an intimate community unionism that advocates for universal state funding designs culturally sensitive labor market intermediaries run by workers and recipients to help people find jobs or workers and addresses everyday tensions in home workplaces

Telethons Paul K. Longmore, 2015-12-28 Movie stars entertainers game show hosts jugglers plate spinners gospel choirs corporate executives posing with over sized checks household name brand products smiling children in leg braces all were fixtures of the phenomenon that defined American culture in the second half of the twentieth century the telethon Hundreds of millions watched these weekend long variety shows that raised billions of dollars for disability related charities Drawing on over two decades of in depth research Telethons trenchantly explores the complexity underneath the campy spectacles At its center are the disabled children who thanks to a particular kind of historical cultural marginalization turned out to be ideal tools for promoting corporate interests privatized healthcare and class status Offering a public message about helping these

unfortunate victims telethons perpetuated a misleading image of people with disabilities as helpless passive apolitical members of American society Paul K Longmore s revelatory chronicle shows how these images in fact helped major corporations increase their bottom lines while filling gaps in the strange public private hybrid U S health insurance system Only once disabled people pushed back in public protests did the broader implications for all Americans become clear Mining insights from great thinkers such as Adam Smith Edmund Burke and Alexis de Tocqueville along with contemporary cultural figures like Jerry Lewis Ralph Nader and several disability rights activists Telethons offers a provocative meditation on big business American government popular culture Cold War values and activism both narrowly and broadly defined As highly popular entertainment telethons schooled Americans about how to feel about their bodies fitness health and appropriate ways to interact with people whose bodies did not fit norms determined by advertisers The programs also taught them about when to weep and how to cure guilt through conspicuous contribution Longmore s astute observations about psychology economics and society reveal how writing off telethons as kitsch and irrelevant has enabled many individual attitudes corporate practices and government policies to go unquestioned Ultimately Telethons reveals the passion humanity resistance and triumph that were not center stage on these popular telecasts by offering insights into the U S disability movement past and present
