Property Deli Cheng,Xinmiao Yu,Klaus Bacher,2024-12-09 This open access book brings together two types of cases at home and abroad One is the latest influential cases in the field of intellectual property rights in the past three years and the other is the classic intellectual property cases in the world The types of cases involve typical cases in the fields of patents trademarks copyrights unfair competition etc involving a wide range of intellectual property laws and a complete range of categories Some cases have been a sensation and some legal issues have been raised or clarified for the first time in relevant judgments Many cases not only have a wide range of social influence but also have typical legal application significance Many cases involve facts and legal issues that go beyond the case and the adjudication itself and have greater reference

significance At the same time we also attached the different opinions of some case judgments such as the Concurring Opinion and the Dissenting Opinion in the US judgment reflecting the different understandings of different judges on the application of the law This part is also very meaningful

European Competition Law and Economics Roger van den Bergh, Peter D. Camesasca, 2001 The aim of this book is to explore the economic fundamentals of European competition law

EU Distribution Law Joanna Goyder, 2011-02-09 The new edition of EU Distribution Law published six years after the previous edition is concerned with the competition rules prohibiting anti competitive agreements and behaviour affecting trade between Member States and the special rules which protect commercial agents Under EU law such anti competitive agreements may be void and substantial fines imposed and liability in damages may result To minimise their risk companies and their advisers must therefore understand the current rules and exemptions In 2010 fully revised EU legislation and guidelines governing distribution and supply agreements came into effect New features include an increased focus on powerful buyers and on internet sales and there is also a more generous approach to resale price maintenance At the same time the special regime for the motor vehicle sector was significantly amended The European Commission as well as national courts and competition authorities actively apply EU competition rules in this area so companies need to take the new rules fully into account Furthermore the continuing enlargement of the EU most recently in 2007 to 27 Member States and the ever expanding case law of the European courts means that EU law has an ever wider and more pronounced impact This comprehensively rewritten and updated new edition of a well known text combines expert commentary with clear practical advice on the law affecting distribution agreements exclusive supply purchase agreements franchising agency and selective distribution This book will be essential reading for commercial and competition lawyers and the legal departments of manufacturers suppliers distributors and retailers currently trading or intending to trade within the European Union
