

To my dear student,

It has been an incredible school year and I am so proud of you. You have worked so hard and have made so much great progress this year. We shared many wonderful memories and have also had fun learning!

My wish for you is that you see in yourself the potential that I see in you. Compliment others and be proud of your own accomplishments.

Try hard but know your own limits. Ask for help when you need it and trust that others will help you.

Fill your heart with laughter and smile often. I love to see you smile. You are unique, special and an amazing person. I appreciate you.

As it says in our classroom, "Think, Dream, Achieve". You can do anything that you put your heart and your mind to. Believe in yourself. I believe in you. I will miss you and I hope that you will come and see me. You will be off for another adventure next year.

Good luck in Grade 4!

Love, Ms. Paula

Schville, 2016-04-01 Never Give Up is an amazing true story It is a case study of an experienced elementary school teacher who was motivated to change her teaching practices from teacher centered transmission approaches to student centered transformational approaches in the context of a Professional Development School You would think she would have accomplished her goal with support from the PDS participants in a year or two Instead she spent seven years encountering struggles set backs and occasionally small triumphs until she achieved bone deep change in her teaching practices What was she aiming for and why did it take so long How did she finally achieve her goals This book is about her journey of change On one level this is a story of a teacher as she struggles to change her teaching practice in ways that center on children s learning rather than on teacher centered rote learning On a deeper level it is a look at how innovative reform movements and wellmeaning professional development efforts fall short of bringing

about deep seated change in teaching methods It raises weighty questions such as how teacher preparation programs should begin the process of instilling habits of exploration experimentation research and learning in their pre service teachers so that they continuously work at updating and upgrading their teaching practices It is a message to curriculum developers policy makers and the public at large that lasting teacher professional development takes more time and support than the more immediate workshop approaches It raises many questions about how teachers learn and how they can keep their practices fresh and innovative throughout their careers A study guide designed to elicit deep thought and discussion of the many issues raised by this story accompanies the book The book and study guide are a valuable supplemental text for courses addressing teacher learning professional development workplace learning teacher change constructivist teaching practices mentoring educational administration and educational policy The study guide is also a tool to stimulate discussion among groups of readers such as pre service and practicing teachers school and district administrators educational policy makers and the public at large who are interested in educational reform
