

ESSAY

An essay is shorter than a research paper, usually 5 paragraphs.

Essays showcase a student's opinion and points of view, which can be backed up by several sources.

In-depth research is not generally required for this writing service.

Essay's main point is to prove a student's writing skills and capabilities.

Depending on the type of essay, students might need or not be familiar with the topic chosen.

Essays can expose a writer's opinion if wanted.

Students can play around with the structure and perception of the paper in some cases.

Types of essays: narrative, descriptive, comparison, academic, philosophical, argumentative, etc.

Typically essays have 5 parts: introduction, 3 body paragraphs, and a conclusion.

Essays are not tied to a specific methodology required for their writing.

VS

RESEARCH PAPER

A research paper is commonly required to reach at least 8 pages, depending on the assignment.

Research articles present other people's stand on a topic, generally a scientist's or recognized organization.

An analytical research paper requires a wide understanding and investigation of a certain topic.

Research papers focus on a deep analysis of a matter.

Students writing a research paper will always need a level of understanding of the topic and sources chosen.

Writers should abstain from personal opinions and stay in line with facts only.

There's a non-negotiable structure that must be followed and closed with a proper conclusion.

Types of research papers: cause and effect, analytical, subject-based, etc.

Have a bigger structure, including a title page, abstract, introduction, body, conclusion, acknowledgments, and references.

Research papers do require a specific methodology carried out throughout the paper.
