stewardship During each stage archivists work with donors to ensure that the digital collections will be arranged described preserved and made accessible for years to come Archivists must take proactive and informed actions to build valuable digital collections Knowing where digital materials come from how those materials were created what materials are important what formats or topical areas are included and how to serve those collections to researchers in the long term is central to archival work This handbook is designed to generate new discussions about how archivists of the twenty first century can overcome current challenges and chart paths that anticipate rather than merely react to future donations of digital archives
