enemy the Unmaker has found hearts and hands willing to do its bidding while Alvin and the Prophet's people were making their last stand. Just across the Hio River from the town of Hatrack River was the first of the slaveholding territories and they ran south all the way to the sea. Both the United States and Appalachia have abolished slavery while the Crown Colonies still deal in human flesh. But the slaves know that their hope of freedom lies just beyond the river and the daring or desperate have often come within the range of Hatrack River's torch. Little Peggy is now sixteen and has seen more of the world's evil than anybody rightly should and when she sees a young girl and her infant son she isn't surprised by the cruelty the slave is running from. Peggy's father takes the risk of bringing the two back to the guest house and in doing so creates the one path in all of Peggy's possible futures that may lead to happiness for both her and Alvin. And so when Alvin arrives in Hatrack River to take up his apprenticeship with Makepeace Smith and learn to be a blacksmith he finds that nothing is as he expected it to be. The would-be Maker is on his own and the works of the Unmaker are close at hand.

The Crystal City Orson Scott Card, 2004-10-01

The Tales of Alvin Maker continue in The Crystal City the sixth book in the historical fantasy series from the Hugo and Nebula award winning and New York Times bestselling author of Ender's Game. Using the lore and the folk magic of the men and women who settled North America Orson Scott Card has created an alternate world where magic works and where that magic has colored the entire history of the colonies. Charms and beseechings, hexes and potions all have a place in the lives of the people of this world. Dowser's find water, the second sight warns of dangers to come and a torch can read a person's future or their heart. In this world where knacks abound Alvin, the seventh son of a seventh son, is a very special man indeed. He's a Maker; he has the knack of understanding how things are put together, how to create them, repair them, keep them whole or tear them down. He can heal hearts as well as bones, he can build a house, he can calm the waters or blow up a storm. And he can teach his knack to others to the measure of their own talent. Alvin has been trying to avert the terrible war that his wife Peggy, a torch of extraordinary power, has seen down the life lines of every American. Now she has sent him down the Mizzippy to the city of New Orleans or Nueva Barcelona as they call it under Spanish occupation. Alvin doesn't know exactly why he's there but when he and his brother-in-law Arthur Stuart find lodgings with a family of abolitionists who know Peggy, he suspects he'll find out soon. But Nueva Barcelona is about to experience a plague and Alvin's efforts to protect his friends by keeping them healthy will create more danger than he could ever have suspected. And in saving the poor people of the city Alvin will be put to the greatest test of his life, a test that will draw on all his power. For the time has come for him to turn to his old friend Tenskwa Tawa, the Red Prophet who controls the lands to the west of the Mizzippy. Now Alvin must take the first steps on the road to the Crystal City that was shown to him in a vision so long ago.

On the Nature of Human Resource Development Monica Lee,2016-03-31 The nature of human resource development HRD has been and remains a contested topic the debate was sparked in part by Monica Lee s seminal 2001 paper which refused to define the discipline of HRD but has been accentuated by increasing globalization political unrest inequality and the erosion of boundaries Should HRD now be seen as more than training or a sub function of large western bureaucracy This book represents a very wide view of HRD that it is at the core of our selves and our relationships and that we continually co create ourselves our organisations and societies These ideas are hung upon a model of Holistic Agency and supported from sources as diverse as evolutionary psychology science fiction the challenges of transitional economies and the structural uncertainties of contemporary society Examining the tensions between self and other agency and structure the book draws inspiration from an almost autoethnographic approach This yields a text that is personal entertaining and easier to read than many academic tomes yet considers the depth and development of the human condition and locates HRD within that
