I have a lot of scope for improvement. I have a lot of potential both professionally and in the personal space - I need to tap it. My asthetic sense, candor and imagination help me stand out in a crowd and I need to fine tune these skills. Given my high sensitivity to stress, I tend to get very irritable and frustrated during high pressure scenarios. I am exteremly disorganized and this has really harmed me all my life. I really need to work on my organization skills. Goals To be more organized, and disciplined. I need to have a stronger work eifthc, and develop strong analytical and quant skills.

I would also like to invest alot of time in reading, and wasting less time doing meaningless stuff. Reading and getting exposed to the opportunities everywhere gets me excited, and once I am excited - I am driven. Perception of others In all honesty, others view me as exteremly modest but that is because I am good at hiding my weaknesses. They respect my candor and people skills, and appreciate my input once in a while. Standards organization expects you to meet Disciplined, focused, very strong finance background, strong work ethic, working in high pressure scenarios, and having a strong sense of responsibility.

DEVELOPMENTAL PLANNING WORKSHEET Professor Randall S. Peterson DEVELOPMENT ISSUE (from GAPS analysis): The issue is that I am easily intimidated, and not focused. I tend to get distracted with my surroundings and tend to loose interest in my own ambition and agenda. I tend to get bored easily, and leave things in the middle - very impatient. EXPECTED OUTCOMES: What will be different? What could someone else observe that will change? For starters I will be more diligent, focused and orderly. This can be seen through my group participation, my in class assignments, my club involvement and my career hunt activities.

Juggling so many aspects at once will require all of the above. My quant and financial skills can really develop if I invest time, and effort in reading and understanding the material. This can also be a visible change. What will I gain by achieving the goal? What is in it for you? Happiness. Job. Personal satisfaction. Personal growth and development. WHO ELSE NEEDS TO BE COMMITTED TO THIS: What will you need to do as soon as you get back to the office to get started? Who do I need to get committed to helping me? And what is in it for them? Me, myself and I. LEARNING STRATEGIES FOR DEVELOPMENT

(use at least three of the six to make your development goal SMART) 1) Seek New Challenges/Projects Challenge PE CASE CHALLENGE Specific Action/Time/Deadline working with people in a field I have very little experience in. Taken a challenge. Have to work hard. This will improve my quant and tech skills. 2) Take Courses and Workshops Course/Workshop ????? Lerner,Nancy Eisenberg,2006-06-12 Part of the authoritative four volume reference that spans the entire field of child development and has set the standard against which all other scholarly references are compared Updated and revised to reflect the new developments in the field the Handbook of Child Psychology Sixth Edition contains new chapters on such topics as spirituality social understanding and non verbal communication Volume 3 Social Emotional and Personality Development edited by Nancy Eisenberg Arizona State University covers mechanisms of socialization and personality development including parent child relationships peer relationships emotional development gender role acquisition pro social and anti social development motivation achievement social cognition and moral reasoning plus a new chapter on adolescent development **Personality Development** P. Michiel Westenberg,Augusto Blasi,Lawrence D. Cohn,2013-05-13 Jane Loevinger s innovative research methodology psychometric rigor and theoretical scope have attracted the attention of numerous scholars and researchers Empirical investigations employing Loevinger s Washington University Sentence Completion Test of ego development WUSCT have appeared with increasing frequency and total more than 300 studies Following the publication of the first

comprehensive revision of the scoring manual for the WUSCT this volume reflects on the strengths and limitations of Loevinger's developmental model. It is divided into sections that correspond with four broad questions that can be raised about Loevinger's developmental model: What is its scope and intellectual tradition? What evidence is there for construct validity? What is its relationship to other social developmental models? What is its clinical relevance to Loevinger's model of ego development? This four-part grouping provides a framework for effectively organizing the present material and frequently the questions raised in one section are addressed in other sections as well. In the concluding chapter, Loevinger addresses some of the ideas that are proposed by the various authors. She also presents the origin of the ego development concept by recounting its history.

Handbook of Personality Development Daniel K. Mroczek, Todd D. Little, 2014-02-25 This handbook is the first volume to provide a comprehensive look at personality development. It features a state-of-the-art examination of the field, an area that is enjoying a resurgence in popularity. Five major types of advances, all of which are represented in this volume, are the result of the recent burst in research activity in this area: 1. new theoretical perspectives, 2. higher quality empirical studies, 3. more sophisticated research designs and analyses, 4. attention to development across the lifespan, and 5. the growing prominence of interdisciplinary approaches to personality development. The Handbook of Personality Development is comprehensive across the lifespan in its range of personality constructs and in its coverage of theoretical and methodological frameworks. It is the first volume to address the most important personality development theoretical frameworks in one location: the evolutionary, physiological, behavioral, genetic, and socio-cultural perspectives. The book also reviews new statistical techniques that allow for the estimation of individual differences in stability and the analysis of change. The latter part of the book focuses on personality development over the lifespan from infancy to older adulthood. The authors address personality variables such as emotion regulation, temperament, and self-concept across the lifespan. The book concludes with a compelling capstone chapter by Dan McAdams on how personality develops. The Handbook of Personality Development provides an historical account of and summary of the most significant and important findings in the area, along with suggestions for future research. Intended for researchers and advanced students in personality, developmental, social, clinical, and educational psychology, as well as related fields such as family studies, sociology, education, nursing, behavioral genetics, neuropsychology, and psychophysiology, the handbook also serves as a valuable resource in advanced courses that address personality development.

The Handbook of Life-Span Development, Volume 2, 2010-08-09 In the past fifty years, scholars of human development have been moving from studying change in humans within sharply defined periods to seeing many more of these phenomena as more profitably studied over time and in relation to other processes. The Handbook of Life-Span Development, Volume 2: Social and Emotional Development presents the study of human development conducted by the best scholars in the 21st century. Social workers, counselors, and public health workers will receive coverage of the social and emotional aspects of human change across the lifespan.
