

Pimsleur Language Programs

Congratulations! You have just purchased the most effective language program ever developed. As you probably know, learning a new language can be frustrating. Your first experience with a foreign language may have been in school. If the classes seemed difficult, or if your grades were poor, you probably believed you had no aptitude for languages. Even if you did well, you may have been surprised later to discover that what you learned was of little or no use when you tried to converse with native speakers.

Perhaps you waited until later in life and tried adult education classes, language schools, or home training programs. There too you may have found the information hard to retain, the lessons tedious, and your progress slow. Many language students give up early in these programs, convinced they lack the natural ability to understand and use what they read and hear.

The truth is that anyone can learn a foreign language - with the right teaching system. With the Pimsleur Method, you will benefit from the years of research and development that have helped create the world's most effective method for teaching foreign languages. The Pimsleur Language Programs, developed by Dr. Paul Pimsleur, fill an urgent need for self-instructional materials in many languages. As high-speed travel and telecommunications bring us closer together, there is an increasing need to be able to communicate with our global neighbors. The government employee, the business executive, the student, the traveler - all can benefit from the practical and effective Pimsleur Method.
