Pinterest Traffic Secrets Michael Cors, 2021 Social media is the darling of the Internet For the past few years online user activity has been shifting more and more toward social media of all types but recently it has truly become an almost entirely visual format Gone are the days where text based communications dominated the social scene These days it's all about visual stimulation and contact through engaging pictures and videos No website has made this more evident than Pinterest Pinterest allows users to share photos and other media by pinning them to virtual pin boards Remember the former popularity of corkboards Pinterest has brought that concept online in a big way According to Alexa.com Pinterest is currently 15th in the United States and 34th in the world for traffic volume The site gets a tremendous amount of traffic and those users are known to visit the site regularly and to purchase products and visit websites they see there In fact MediaBistro.com compiled a report about social networking tools and discovered that almost as many people use Pinterest as use Twitter In this guide you're going to learn how to make the most of this social media powerhouse and how to use it effectively as a marketing tool So let's get started

Pinterest Profit Secrets 2021 Edition Training Guide Laura Maya, 2021-10-30 Is Pinterest the New Google Google is a search engine That means whatever you're looking for you can Google it From obscure song lyrics to how to hem pants you can Google a term or phrase and find videos images and links to relative content Sort of like Google Pinterest is a visual search engine Pinterest uses a visual platform of images that stand alone as content but also link to resources for deeper and richer information and engagement Like Google you can use key words and phrases to search for relative content Even better than Google you can save your links or pins to boards which are a helpful way to organize content Googling a word or phrase can generate the top ten or so articles images and other content relative to that search Many of the results are paid ads which rank higher than organic content Pinterest however can generate many more results from a search and each and every image offered can lead to a deeper dive experience about a subject or related topic In this way Pinterest may be better than Google for specific searches Can Pinterest be Used for Business When it comes to certain topics like recipes DIY and business topics Pinterest can be a gold mine As a user Pinterest is an excellent way to find relative content quickly and save it for use down the line If you're a content creator Pinterest is an excellent way to showcase your goods and services and attract customers easier and more effectively than you might have exclusively with Google It's also superior to social media platforms like Instagram that don't allow links on posts Pinterest is actually one of the largest drivers of traffic to websites in the world Many people think Pinterest is used mainly by women or worry their target audience isn't using the social media platform Both are false Pinterest demographics include all genders and ages and Pinterest has been found to be more effective at leading people to content than other platforms like Twitter Optimizing your Website and Your Pinterest Account Makes Sense Everyone knows website optimization is vital to

being discovered on the web It doesn't make sense to invest resources in blogging or creating content if it's lost in the ether Most people take steps to optimize their sites for SEO or search engine optimization to increase the likelihood their content is found It's the same with Pinterest You can take simple steps to create images descriptions and links to your content so they land in front of more people and pop up under relevant searches It makes sense to use Pinterest for business as there is limitless potential to convert more browsers to buyers engage more customers and promote your business with people looking for what you have to offer

Vincent,2024-12-02 Why You Should Use Pinterest to Market Your Business Due to the sheer number of social media sites available most business owners focus their time and attention on one or two When considering which sites to use to promote and market your business don t overlook Pinterest s visually compelling Pins and Boards There are several notable ways in which Pinterest differs from other social networking platforms While you can follow other users and they can follow you this is not a social network Rather than that it s about providing rapid access to compelling visual imagery and instructive Pins on virtually any subject These Pins can then be saved to a user s own boards for easy access in the future Any user can view another user s Pins by searching for the category or term associated with the Pin While each Pin may have some text or even a URL the purpose is not to convey the here s where I am or what I m doing information seen on the majority of social networking networks Rather than that a pertinent comment on the message and what it represents is acceptable Most crucially unlike Facebook and Twitter where your updates are rarely visible for longer than five days or a few hours Pins can be visible in search results eternally Still Not Convinced Consider the Following Statistics If you re tempted to continue with the major players such as Facebook and Twitter hold off on dismissing Pinterest until you examine the facts To begin let s discuss the sheer number of your potential audience Pinterest has a mind boggling 150 million active users Yes you read that correctly 70 million of those are in the United States while 80 million live elsewhere As could be predicted Pinterest activity is enormous There are about 75 billion Pins on over a billion public and private user boards Each day almost 2 billion shopping pins are shared **Secret Sauce Of Digital Business** Chirag Dude,2020-10-08 All Entrepreneur stories are love stories Love with their passion and work Whether your fantasy is escaping the rat race experiencing high end world travel earning a monthly five figure business
