Reports and Documents United States. Congress, 1964 Kenneth Whiting Felix Haynes, 2023-08-10 Kenneth Whiting was well known in the Navy of his day During his early years after graduating from the Naval Academy he commanded several early submarines and was known as the first man to escape from a downed submarine After being trained to fly by Orville Wright he was the first naval officer to conceptualize a ship that was to become the most important in the US Navy the aircraft carrier After submitting his first three unsuccessful proposals to build such a ship his creativity and aggressiveness were recognized at the start of World War I when he was asked to lead the Navy's First Aeronautical Detachment to France The FAD was the first American unit to travel to Europe and within a few months he negotiated a plan with the French Navy for a system to build naval air stations and train his men in anti submarine warfare from the air When the US Navy Department approved the plan he was transferred to the command of NAS Killingholme on England's North Sea Coast He built Killingholme into the largest naval air station in Britain Returning to the US at the end of the war he found the Navy Department much more willing to talk about building aircraft carriers Upon the approval of this new ship type he was placed in charge of converting or building the first six Along the way he developed the new systems for the operation of launching and landing aircraft on the new flat flight decks For his developmental work with the first six carriers and commanding two of them he is frequently called the Father of the Aircraft Carrier in books and publications about the ship which was to take the place of the battleship as the king of the seas Along the way naval aviation took advantage of his ability to effectively and smoothly advocate for many of the then fledgling naval aviation's important goals in the public arena Because he had publicly spearheaded much of those goals the battleship admirals who ran the Navy of that era were able to take revenge on him and prevent him from being promoted to admiral rank His tragic death in the middle of World War II became part of the reason his name has been largely forgotten outside the Navy but naval aviators know him because the field where they are all trained Whiting Field NAS in Pensacola is named for him The military exploits of this American sailor are worth recounting but the victories of Whiting and his family racing yachts on Long Island Sound make him even more

interesting The goal of this first biography of Kenneth Whiting is to enable those who empower one of today s most important functions naval aviation and the Americans who have benefitted from Whiting s work to remember this hero of naval aviation and submarines **DA Pam** ,1975 **All Hands** ,1975 *Mr. Page, of Maryland, from the Committee on Naval Affairs, Submitted the Following Adverse Report: [To Accompany H. McMichael,2024-11-01 The Mother of All Hooks is a richly detailed description of the United States government s attempts to punish naval officers for sexual misconduct committed at the 1991 Tailhook Association convention in Las Vegas Nevada Journalist William H McMichael describes the institutionalized mind set that led to that misconduct and in the face of an oppressive politically charged investigation to a large scale failure to cooperate with government agents This failure led to further investigative and prosecutorial excesses that ultimately doomed the effort to bring the guilty to justice many of the guiltiest hi fact were given immunity to testify and escaped severe punishment At the same time McMichael makes clear that Tailhook misconduct had been largely condoned for decades but that senior officials failed to take responsibility for allowing such an atmosphere to flourish This powerful expose is a shocking eye opening read for psychologists criminologists criminal justice professionals and members of the U S military The Tailhook Association convention had become infamous in naval circles for heavy drinking hard partying and sexual promiscuity The most notable such ac tivity was the gauntlet a hallway lined by men through which selected women were forced to pass only to be fondled McMichael provides a rich narrative ac count of how the United States Navy and the Pentagon mishandled investigation of events at the 1991 convention and subsequent hearings In addition to exposing that approach s dramatic shortcomings McMichael also provides insight into the Navy s history of open sexuality by its members while overseas the fighter pilot psyche and the larger issue of whether the Navy should be permitted to investigate its own transgressions While more than thirty admirals eventually received what amounted to a hand slap more than twenty junior officers received career killing punitive letters of reprimand in closed door administrative hearings The Mother of All Hooks provides absorbing new details for all who think they know what hap pened because of Tailhook and why *Naval Reservist* ,1946 Journal of the American Medical Association ,1917 **American State Papers** United States.
