Samsung Rising Geoffrey Cain, 2020-03-17 An explosive expose of Samsung that reads like a dynastic thriller rolling through three generations of family intrigue embezzlement bribery corruption prostitution and other bad behavior The Wall Street Journal **LONGLISTED FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD** Based on years of reporting on Samsung for The Economist The Wall Street Journal and Time from his base in South Korea and his countless sources inside and outside the company Geoffrey Cain offers a penetrating look behind the curtains of the biggest company nobody in America knows Seen for decades in tech circles as a fast follower rather than an innovation leader Samsung today has grown to become a market leader in the United States and around the globe They have captured one quarter of the smartphone market and have been pushing the envelope on every front Forty years ago Samsung was a rickety Korean agricultural conglomerate that produced sugar paper and fertilizer located in a backward country with a third world economy With the rise of the PC revolution though Chairman Lee Byung chul began a bold experiment to make Samsung a major supplier of computer chips The multimillion dollar plan was

incredibly risky But Lee wowed by a young Steve Jobs who sat down with the chairman to offer his advice became obsessed with creating a tech empire And in Samsung Rising we follow Samsung behind the scenes as the company fights its way to the top of tech It is one of Apple s chief suppliers of technology critical to the iPhone and its own Galaxy phone outsells the iPhone Today Samsung employs over 300 000 people compared to Apple s 80 000 and Google s 48 000 The company s revenues have grown more than forty times from that of 1987 and make up more than 20 percent of South Korea s exports Yet their disastrous recall of the Galaxy Note 7 with numerous reports of phones spontaneously bursting into flames reveals the dangers of the company s headlong attempt to overtake Apple at any cost A sweeping insider account Samsung Rising shows how a determined and fearless Asian competitor has become a force to be reckoned with *Plunkett's InfoTech Industry Almanac 2007 (E-Book)* Jack W. Goldfayn,2012-01-03 In Evangelist Marketing Alex Goldfayn argues that technology companies succeed in spite of their marketing not because of it He says that if consumer tech makers ceased all marketing activity today they would not see a significant decline in sales In this book Alex presents why the current state of overly technical features oriented tech marketing branding communications and public relations is costing the industry billions of dollars easy money that s voluntarily being left on the table Then he lays out a step by step system for creating intensely loyal brand evangelists based on deep consumer insights and simple emotional language Evangelist Marketing is written for consumer tech companies big and small from PC manufacturers to Web based services It s also sure to improve the work of their marketing and public relations agencies **Plunkett's Entertainment and Media Industry Almanac 2008** Jack W.
