Mirrorless and Manual Focus Tony Bramley, 2019-08-18. Take control of your photography. Fed up with inconsistent pictures from your camera. Disappointed with your photos. Getting lost in encyclopedic photography books full of technical jargon. You may want to excel more in your photography or just impress your friends and family with your photos. Light Academy Photo Companion Guides help you to become a better photographer simply. I began training in 2013 since then students have commented that many books confuse them. Technical information becomes overwhelming and halts the learning process. The Light Academy Photo Companion Guides are short helpful and easy to follow. Some also contain a field guide at the back. Keep them with you on your tablet or phone or by your workstation. I have kept them at around 30 pages to keep the learning process manageable. Choose the areas of photography you want to expand your skill on. Buy what you need at prices that will not break the bank. About the Author Tony Bramley FRPS.
