17 Quick Tips to Write an A+ Philosophy Term Paper

April 12, 2016 • 2 min read • original

1) **Do an online research.** Before you pack your things and go to the library, do an online research from the comfort of your laptop. Here are a couple of academic search engines that will offer you a safe and student friendly environment:

- Scholar.google.com
- The OALster database
- Internet Public Library

2) **Effectively manage knowledge.** Use special apps to save and organize the information you collect. Here's what can help:

- Mendeley
- Bibloscape
- Bookends

3) **Brainstorm your topic.** This simple method can save you plenty of time and bring surprising results. Set a timer and try to generate as many ideas as possible within a chosen time period. Make it a rule to write down every idea crossing your mind (even if it seems crazy). You'll have time to sort out your ideas later.

4) **Create an outline.** After you choose all major arguments, work on the logical structure of your paper. As an option, draw a mind map for your would-be paper.

5) **Create a thesis statement.** Just like any other academic paper, your Philosophy term paper will require a strong thesis statement, the last sentence in the introduction part, briefly summarizing the main idea of your paper.

6) **Write a stunning introduction.** Start with an attention hook – a quote, a rhetorical question, striking stats or an interesting fact.

7) **Explain why you chose this topic.**

Philosophy Paper Thesis:

Writing Philosophy Papers Zachary Seech, 1993 WRITING PAPERS IN PHILOSOPHY is an inexpensive supplement covering the various kinds of writing assignments for which many of today's students are ill prepared. Teachers can rest assured that students now have the resources to learn the various skills e.g. organization, documentation, how to write a thesis defense or comparison and contrast paper. This book will save time and frustration for everyone concerned. *Writing Philosophy Papers* Zachary Seech, Andrew Kania, 2024-08-28. This advice is illustrated with concrete examples throughout, including a complete thesis defense paper written and formatted according to the book's recommendations. The book also covers how to take good notes from various kinds of philosophical sources, how to write other commonly assigned kinds of papers, and how to study for and take a philosophy exam. A chapter on doing philosophical research contains practical advice on how to discover and access the most helpful sources for a philosophical research paper or annotated bibliography. Because virtually every philosophy assignment requires a basic grasp of arguments, the book ends with a chapter introducing some basic concepts and skills for reasoning well. The heart of the sixth edition has been revised and restructured to lead students even more clearly through the process of drafting, revising, and formatting a thesis defense paper. This new edition also includes an updated, completely revised and expanded chapter on citing sources, giving equal consideration to print and online sources; an updated, completely revised and expanded chapter on doing philosophical research, focused on how to find the most helpful sources for completing a philosophical research paper or annotated bibliography; updated, revised and greatly expanded advice on writing style and usage; a completely revised and expanded treatment of good reasoning, with a new discussion of inductive and abductive reasoning; and new advice on how to take good notes and how to study for and take philosophy exams.
