Following the publication cycle of ATLS Advanced Trauma Life Support by the Committee on Trauma of the American College of Surgeons the PHTLS program is designed to enhance and increase knowledge and skill in delivering trauma care. The PHTLS textbook is the required book for the PHTLS course and is also ideal for use as the trauma component of a paramedic course or as a general reference book on trauma assessment and management. Based on Prehospital Trauma Life Support PHTLS 5th Edition this military version combines both basic and advanced trauma concepts and skills in one definitive resource and features an entirely new chapter on evidence based guidelines for military medicine developed by the Committee on Tactical Combat Casualty Care. Instructor resources available contact your sales representative for details. A companion CD ROM with video presentations of the airway and spinal skills used in PHTLS is now included with every book. It also contains information to download onto a PDA such as the Glasgow Coma Scale Revised Trauma Score Rule of 9's Parkland Formula and Pediatric Vital Signs. Content includes both basic and advanced training and has been updated to reflect the current ATLS guidelines complete with extensive references and suggested readings. A consistent approach for every body region makes the book easy to follow and includes content on anatomy and physiology pathophysiology and assessment and management. Includes chapters on Injury Prevention Golden Principles of Prehospital Trauma Care and Triage Transport and Trauma Systems. Golden Principles of Trauma Care chapter includes information on prolonged transportation and additional treatment for a trauma patient when transportation times are greater than normal. Case Scenarios with end of chapter solutions and Review Questions are included for every chapter to promote critical thinking and assess knowledge. NAEMT Airway thoracic and spinal skills are presented in a heavily illustrated step by step format as Specific Skills. The Airway Management and Ventilation chapter includes information on face to face intubation an alternate method of intubating trauma patients. It also defines the difference between pharmacologically assisted intubation and rapid sequence intubation. Includes information on tools such as pulse oximetry and capnography. A difficult airway

algorithm aids students in determining which airway adjuncts are appropriate and when they should be used Includes new photographs geared specifically to the military Describes differences in procedures in a non combat situation and those in a combat situation The Military Medicine chapter written by the military provides special trauma considerations and protocols Military procedures are also found throughout the text where applicable **Traumatic Brain Injury** Robert P. Granacher Jr.,2007-12-20 Since the original publication of Traumatic Brain Injury Methods for Clinical Forensic Neuropsychiatric Assessment enhanced clinical findings concerning traumatic brain injury have improved our ability to evaluate and treat individuals with TBI Unfortunately the dramatic rise in the occurrence of brain injuries over the same time period d *Front Line Surgery* Matthew J. Martin,,Alec C. Beekley,,Matthew J. Eckert,2017-07-21 The second edition of Front Line Surgery expands upon the success of the first edition providing updated discussion of practical management of commonly encountered combat injuries This edition reflects the cutting edge of combat casualty care refined principles of surgical management of specific injury patterns and incorporation of the spectrum of recent research advancements in trauma care Each chapter continues to follow the same organization as the first edition The BLUF or bottom line up front headlines each topic providing the critical pearls for the reader followed by a focused and straight forward discussion of management pitfalls and recommendations In addition select chapters conclude with a section discussing the application of this topic in civilian practice as potentially encountered by the rural or humanitarian relief surgeon Additional new topics include REBOA and endovascular techniques for hemorrhage control updates in transfusion and resuscitation practice active shooter situations rural trauma management in developed nations advancements in prehospital care and the Tactical Combat Casualty Care TC3 course and discussion of the newest generations of topical hemostatic agents and tourniquets These additions serve to both enhance the breadth and depth of the material relevant to military surgeons but should also further expand the applicability and interest in this work to all civilian trauma surgeons **PHTLS--Pre-Hospital Trauma Life Support** National Association of Emergency Medical Technicians (U.S.).
