Aligning the Governance Structure of the NNSA Laboratories to Meet 21st Century National Security Challenges National Research Council, Division on Engineering and Physical Sciences, Laboratory Assessments Board, Committee on Assessment of the Governance Structure of the NNSA National Security Laboratories, 2015-03-13 Aligning the Governance Structure of the NNSA Laboratories to Meet 21st Century National Security Challenges is an independent assessment regarding the transition of the National Nuclear Security Administration NNSA laboratories Los Alamos National Laboratory Lawrence Livermore National Laboratory and Sandia National Laboratories to multiagency federally funded research and development centers with direct sustainment and sponsorship by multiple national security agencies This report makes recommendations for the governance of NNSA laboratories to better align with the evolving national security landscape and the laboratories increasing engagement with the other national security agencies while simultaneously encouraging the best technical solutions to national problems from the entire range of national security establishments According to this report the Department of Energy should remain the sole sponsor of the NNSA laboratories as federally funded research and development centers The NNSA laboratories will remain a critically important resource to meet U S national security needs for many decades to come The recommendations of Aligning the Governance Structure of the NNSA Laboratories to Meet 21st Century National Security Challenges will improve the governance of the laboratories and strengthen their strategic relationship with the non DOE national security agencies

Strategic Investments in Instrumentation and Facilities for Extraterrestrial Sample Curation and Analysis National Academies of Sciences, Engineering, and Medicine, Division on Engineering and Physical Sciences, Space Studies Board, Committee on Extraterrestrial Sample Analysis Facilities, 2019-03-29 The United States possesses a treasure trove of extraterrestrial samples that were returned to Earth via space missions over the past four decades Analyses of these previously returned samples have led to major breakthroughs in the understanding of the age composition and origin of the solar system Having the instrumentation facilities and qualified personnel to undertake analyses of returned samples especially from missions that take up to a decade or longer from launch to return is thus of paramount importance if the National Aeronautics and Space Administration NASA is to capitalize fully on the investment made in these missions and to achieve the full scientific impact afforded by these extraordinary samples Planetary science may be entering a new golden era of extraterrestrial sample return now is the time to assess how prepared the scientific community is to take advantage of these opportunities Strategic Investments in Instrumentation and Facilities for

Extraterrestrial Sample Curation and Analysis assesses the current capabilities within the planetary science community for sample return analyses and curation and what capabilities are currently missing that will be needed for future sample return missions This report evaluates whether current laboratory support infrastructure and NASA s investment strategy is adequate to meet these analytical challenges and advises how the community can keep abreast of evolving and new techniques in order to stay at the forefront of extraterrestrial sample analysis *Building the Knowledge Economy in Europe* Meng-Hsuan Chou,Åse Gornitzka,2014-03-28 This book is the first comparative volume on European research and higher education policies **Solar Energy Update** ,1980 *Open Science by Design* National Academies of Sciences, Engineering, and Medicine,Policy and Global Affairs,Board on Research Data and Information,Committee on Toward an Open Science Enterprise,2018-08-09 Openness and sharing of information are fundamental to the progress of science and to the effective functioning of the research enterprise The advent of scientific journals in the 17th century helped power the Scientific Revolution by allowing researchers to communicate across time and space using the technologies of that era to generate reliable knowledge more quickly and efficiently Harnessing today s stunning ongoing advances in information technologies the global research enterprise and its stakeholders are moving toward a new open science ecosystem Open science aims to ensure the free availability and usability of scholarly publications the data that result from scholarly research and the methodologies including code or algorithms that were used to generate those data Open Science by Design is aimed at overcoming barriers and moving toward open science as the default approach across the research enterprise This report explores specific examples of open science and discusses a range of challenges focusing on stakeholder perspectives It is meant to provide guidance to the research enterprise and its stakeholders as they build strategies for achieving open science and take the next steps *The Best Business Writing 2014* Dean Starkman,Martha M. Hamilton,Ryan Chittum,2014-12-16 This anthology of the year s best investigative business writing explores the secret dealings of an elite Wall Street society and uncovers the crimes and misadventures of the young founder of Silk Road the wildly successful online illegal goods site known as the eBay of vice It reveals how the Fed dithered while the financial crisis unfolded and explains why the leaders of a two trillion dollar bond fund went to war with each other Articles from the best newspapers and magazines in the country delve into how junk food companies use science to get you to eat more and how Amazon dodges the tax man how J Crew revitalized itself by transforming its creative process and Russell Brand went deep on media and marketing after his GQ Awards speech went haywire Best Business Writing 2014 includes provocative essays on the NFL s cover ups and corporate welfare Silicon Valley s ultralibertarian culture and the feminist critique of Sheryl Sandberg s career advice book for women Lean In Stories about toast T shirt making and the slow death of the funeral business show the best writers can find worthy tales in even the most mundane subjects **Experimental Hydraulics: Methods, Instrumentation, Data Processing and Management** Jochen Aberle,Colin Rennie,David Admiraal,Marian Muste,2017-07-20 This is the second volume of a two

volume guide to designing conducting and interpreting laboratory and field experiments in a broad range of topics associated with hydraulic engineering Specific guidance is provided on methods and instruments currently used in experimental hydraulics with emphasis on new and emerging measurement technologies and methods of analysis Additionally this book offers a concise outline of essential background theory underscoring the intrinsic connection between theory and experiments This book is much needed as experimental hydraulicians have had to refer to guidance scattered in scientific papers or specialized monographs on essential aspects of laboratory and fieldwork practice The book is the result of the first substantial effort in the community of hydraulic engineering to describe in one place all the components of experimental hydraulics Included is the work of a team of more than 45 professional experimentalists who explore innovative approaches to the vast array of experiments of differing complexity encountered by today s hydraulic engineer from laboratory to field from simple but well conceived to complex and well instrumented The style of this book is intentionally succinct making frequent use of convenient summaries tables and examples to present information All researchers practitioners and students conducting or evaluating experiments in hydraulics will find this book useful

P. Pridham, 2016-09-06 The author defines and

constructs mixed Hodge structures on real schematic homotopy types of complex quasi projective varieties giving mixed Hodge structures on their homotopy groups and pro algebraic fundamental groups The author also shows that these split on tensoring with the ring $R[x]$ equipped with the Hodge filtration given by powers of x giving new results even for simply connected varieties The mixed Hodge structures can thus be recovered from the Gysin spectral sequence of cohomology groups of local systems together with the monodromy action at the Archimedean place As the basepoint varies these structures all become real variations of mixed Hodge structure *Frontiers of Pattern Recognition* Satoshi

Watanabe, 2014-05-10 *Frontiers of Pattern Recognition* contains the proceedings of the International Conference on Frontiers of Pattern Recognition which took place on January 18 20 1971 at the University of Hawaii Honolulu The compendium consists of 30 papers from authorities from eleven different countries which describe the frontiers of pattern recognition as viewed from diverse viewpoints Topics discussed include some techniques for recognizing structures in pictures grammatical inference syntactic pattern recognition and stochastic languages and pattern cognition and the organization of information Also covered are subjects on human face recognition cluster analysis and learning algorithms of pattern recognition in non stationary conditions Computer scientists mathematicians statisticians linguists and psychologists will find the book informative **The Strategic Alliance Handbook** Mr Mike Nevin, 2014-10-28 Strategic alliances offer organisations an

On Non-Generic Finite Subgroups of Exceptional Algebraic Groups Alastair J. Litterick, 2018-05-29 The study of finite subgroups of a simple algebraic group G reduces in a sense to those which are almost simple If an almost simple subgroup of G has a socle which is not isomorphic to a group of Lie type in the underlying characteristic of G then the subgroup is called non generic This paper considers non generic subgroups of simple algebraic groups of exceptional type in arbitrary characteristic

Earth Systems Data Processing and Visualization Using MATLAB Zekâi Şen, 2019-03-27 This book is designed to provide easy means of problem solving based on the science philosophical and logical rules that lead to effective and reliable software at the service of professional earth system scientists through numerical scientific computation techniques Through careful examination of software illuminated by brief scientific explanations given in the book the reader may develop his her skills of computer program writing Science aspects that are concerned with earth systems need numerical computation procedures and algorithms of data collected from the field measurements or laboratory records The same is also valid for data processing in social sciences and economics Some of the data assessment and processing procedures are at the large scales and complex and therefore require effective and efficient computer programs Data reduction and graphical display in addition to probabilistic and statistical calculations are among the general purposes of the book Not only students works but also projects of researchers at universities and tasks of experts in different companies depend on reliable software Especially potential users of MATLAB in earth systems need a guidance book that covers a variety of practically applicable software solutions

Thriving on Our Changing Planet National Academies of Sciences, Engineering, and Medicine, Division on Engineering and Physical Sciences, Space Studies Board, Committee on the Decadal Survey for Earth Science and Applications from Space, 2018-12-20 We live on a dynamic Earth shaped by both natural processes and the impacts of humans on their environment It is in our collective interest to observe and understand our planet and to predict future behavior to the extent possible in order to effectively manage resources successfully respond to threats from natural and human induced environmental change and capitalize on the opportunities social economic security and more that such knowledge can bring By continuously monitoring and exploring Earth developing a deep understanding of its evolving behavior and characterizing the processes that shape and reshape the environment in which we live we not only advance

knowledge and basic discovery about our planet but we further develop the foundation upon which benefits to society are built Thriving on Our Changing Planet presents prioritized science applications and observations along with related strategic and programmatic guidance to support the U S civil space Earth observation program over the coming decade *Force Multiplying Technologies for Logistics Support to Military Operations* National Research Council, Division on Engineering and Physical Sciences, Board on Army Science and Technology, Committee on Force Multiplying Technologies for Logistics Support to Military Operations, 2014-12-15 The mission of the United States Army is to fight and win our nation's wars by providing prompt sustained land dominance across the full range of military operations and spectrum of conflict in support of combatant commanders Accomplishing this mission rests on the ability of the Army to equip and move its forces to the battle and sustain them while they are engaged Logistics provides the backbone for Army combat operations Without fuel ammunition rations and other supplies the Army would grind to a halt The U S military must be prepared to fight anywhere on the globe and in an era of coalition warfare to logistically support its allies While aircraft can move large amounts of supplies the vast majority must be carried on ocean going vessels and unloaded at ports that may be at a great distance from the battlefield As the wars in Afghanistan and Iraq have shown the costs of convoying vast quantities of supplies is tallied not only in economic terms but also in terms of lives lost in the movement of the materiel As the ability of potential enemies to interdict movement to the battlefield and interdict movements in the battlespace increases the challenge of logistics grows even larger No matter how the nature of battle develops logistics will remain a key factor *Force Multiplying Technologies for Logistics Support to Military Operations* explores Army logistics in a global complex environment that includes the increasing use of antiaccess and area denial tactics and technologies by potential adversaries This report describes new technologies and systems that would reduce the demand for logistics and meet the demand at the point of need make maintenance more efficient improve inter and intratheater mobility and improve near real time in transit visibility *Force Multiplying Technologies* also explores options for the Army to operate with the other services and improve its support of Special Operations Forces This report provides a logistics centric research and development investment strategy and illustrative examples of how improved logistics could look in the future
