Sarah Bowdich Lee (1791-1856) and Pioneering Perspectives on Natural History Mary Orr,2024-09-17 History from below uncovers overlooked protagonists contributing to inter national endeavour often against considerable odds Mrs T Edward Bowdich then Mrs R Lee 1791 1856 is indicative When women allegedly cannot

participate in early nineteenth century scientific exploration discovery and publication Sarah s multiple specialist contributions to French and British natural history have attracted no book length study This first appraisal of Sarah s unbroken production of discipline changing scientific work over three decades in modern ichthyology in historical geography of West Africa and in the next generational dissemination of expert scientific knowledge does more than fill this gap The book also pivotally investigates the intercultural interdisciplinary and multi genre reach of Sarah s pioneering perspectives and contributions and how she could achieve her work independently in her own name s over three decades Sarah s larger significance is then to provide a very different narrative for women at work in expert nineteenth century natural history making By everywhere challenging the secondary minor and domestic frames for women s contributions of the period the pioneering perspectives of Sarah s story also provide alternative paradigms to the leaky pipeline model still informing women s careers and work in STEM M today

### **The Star Gate Archives**

Edwin C. May, Sonali Bhatt Marwaha, 2019-04-24 Star Gate is the largest funded program in the history of psi research receiving about 19 933 million in funding from 1972 to 1995 Researchers from SRI International and later at Science Applications International Corporation in association with various U S intelligence agencies participated in this program Using the remote viewing method research focused on understanding the applicability and nature of psi in general but mostly upon informational psi Volume 1 Remote Viewing 1972 1984 and Volume 2 Remote Viewing 1985 1995 include all aspects of RV including laboratory trials and several operational results Volume 3 Psychokinesis focuses on laboratory investigations Volume 4 Operational Remote Viewing Government Memorandums and Reports includes an analysis of the applied remote viewing program and a selection of documents that provide a narrative on the behind the scenes activities of Star Gate In a total of 504 separate missions from 1972 to 1995 remote viewing produced actionable intelligence prompting 89 percent of the customers to return with additional missions The Star Gate data indicate that informational psi is a valid phenomenon These data have led to the development of a physics

and neuroscience based testable model for the underlying mechanism which considers informational psi as a normal albeit atypical phenomenon The Star Gate data found insufficient evidence to support the causal psi psychokinesis hypothesis
