

Emily Boltran
Period 3
Fall of Rome DBQ

The Roman Empire, a once flourishing and powerful society, which reigned from the years 395 AD to 476 AD, would soon collapse. For several years the empire was bombarded with several issues which would ultimately lead to its downfall. After many years of corruption, struggle, and destruction Rome took its final blow in 476 AD. The German leader Odoacer staged a revolt, Romulus Augustus, the final Roman emperor, was forced to renounce his efforts and Odoacer took control of Italy. This was the final component of a lengthy chain reaction. The fall of the Western Roman Empire was brought up as a result of a plethora of factors. However, the political issues which took place within the empire were a direct cause of the empire's fall. The empire was brought down from the inside, as the political factors which it faced led to an internal chaos, lack of organization and divided empire.

With its vast territory, influential trade routes and endless impacts on the world the Roman Empire compared to no other. However, one of the empire's breaking points would be the lack of organization which would eat away at the empire. The Roman Empire expanded so greatly it is known today as one of the largest empires in the ancient world, inhabiting 50 to 90 million people. To govern over such a significantly large region and population, great organization is needed to keep society in order. This was one of the major factors that the empire lacked, more organization would be one of the factors which contributed to its fall. The people were pushed away from political matters and their every move was in the hands of corrupt leaders who were not aware or chose to disregard the chaos they were spreading across the empire. The empire could not organize, it could not support a military, it was unable to have a stable economy. (Document 1) The author's purpose in writing this document is to show the effects of the disorganization in the empire. This disorganization arose from the political conflicts which were taking place within the empire. As those in power attempted to grow themselves wealthier the people did not have the means to survive. Chaos reigned throughout the empire, for the power of the few. Ultimately the fall of Rome was inevitable due to its size. (Document 2) Its size alone was a factor to consider when determining the causes of the fall of the empire. However, the main issue was the fact that this vast territory could not be effectively governed. The leaders could not organize the many people, the many micro economies, the trade routes, and a great deal of other matters. The methods of dividing power were typically careless and ineffective. For such an empire to survive organization had to be a top priority yet this need was pushed to the side. This lack of organization could have easily been avoided with the proper political actions and governance. Despite this those who had power over the common people had their own interests as the main priority. The Western Roman Empire would fall as a result of the internal issues caused by the lack of a strong political system.

Although it is argued that religion was one of the major factors which led to the fall of the Roman empire, the true root of the issue between religion and the empire arose from the instability of political ideas and the lack of unity throughout the empire. Based on the information provided in Document 4 it can be established that, the government eliminated individualistic ideas and took responsibility over all affairs. The people left with no voice, no valid opinion, were in a place of weakness. They were no longer the once self-reliant and initiative people. The author's purpose in writing this document was to demonstrate how the people of the Roman empire were impacted by the political influence of the government.

Social Studies and Diversity Education Elizabeth E. Heilman, Ramona Fruja Amthor, Matthew T. Missias, 2010 The preparation of social studies teachers is crucial not only to the project of good education but even more broadly to the cultivation of a healthy democracy and the growth of a nation e tm s citizens This one of a kind resource features ideas from

over 100 of the field's most thoughtful teacher educators reflecting on their best practices and offering specific strategies through which future teachers can learn to teach thus illuminating the careful planning and deep thinking that go into the preparation of the social studies teachers. While concentrating on daily teaching realities such as lesson planning and meeting national state or provincial standards each contributor also wrestles with the most important current issues on educating teachers for today's increasingly diverse complex and global society. Features of this unique teaching resource include Volume sections that are arranged by both disciplinary organization and approach or activity. Thoughtful introductory section essays that conceptualize each theme providing a conscientious theoretical overview and analysis of each individual section. Rich and concrete examples of best practice from some of the field's most diverse and highly regarded scholars and teacher educators. An index that identifies the appropriate teaching level and teacher education context and links the strategies and ideas that are presented in the essay to the relevant INTASC and NCSS standards for quick reference in classroom planning as well as institutional development and implementation. A much needed addition to the field this comprehensive volume will be of value to any teacher interested in social studies or diversity education across age groups and educational contexts.

Inquiry-Based Practice in Social Studies Education S.G. Grant, Kathy Swan, John Lee, 2022-09-15. Now in its second edition *Inquiry Based Practice in Social Studies Education* Understanding the Inquiry Design Model presents a conceptual base for shaping the classroom experience through inquiry based teaching and learning. Using their Inquiry Design Model (IDM) the authors present a field tested approach for ambitious social studies teaching. They do so by providing a detailed account of inquiry's scholarly roots as well as the rationale for viewing questions tasks and sources as inquiry's foundational elements. Based on work done with classroom teachers university faculty and state education department personnel this book encourages readers to transform classrooms into places where inquiry thrives as everyday practice. The second edition includes a new chapter highlighting three ways that the blueprint acts as an assessment and curriculum system and includes updated and enhanced references throughout the book. Both pre service and in service teachers are sure to learn strategies for developing the reinforcing elements of IDM from planning inquiries to communicating conclusions and taking informed action. The updated curricular and pedagogical examples included make this practical book essential reading for researchers students of pre service and in service methods courses and professional development programs.

Best Practices in Social Studies Assessment Mark Percy, 2017-03-01. The importance of social studies assessment is beyond question. The National Council of the Social Studies C3 Framework recognizes the importance of high quality assessments its major objective a deep understanding of the sociocultural world has as its underpinning the idea that students must be able to investigate the world and that teachers much be able to assess their understanding of it. However there is a comparative dearth of research that focuses on effective social studies assessment particularly with regard to the impact of teacher practice on the development of best practices. Such research is vital to moving social studies

away from an emphasis on testing and more towards using assessment as a means of educating our students In *Best Practices of Social Studies Assessment* we focus on an essential question what is an effective assessment Helping teachers develop practical creative curriculum appropriate strategies is essential especially in an era in which teachers are faced with the dilemma of creating inquiry based assessments in the midst of preexisting regimes of standardized summative assessments In this volume research conducted between university professors and working teachers is described focusing on innovative assessment practices These practices include role playing activities depicting historical events Socratic seminars revolving around public policy issues collaborative student projects on a wide range of social inquiries including the implementation of UN programs and the promotion of critical thinking and writing skills on subjects as diverse as school violence and the impact of imperialism These adaptive assessments highlight the essential role of the teacher in creating assessments that blend higher order critical thinking complex content knowledge and an understanding of their own students The strategies described in this volume focus on the ability of expert educators to acknowledge the structures power and consequences of high stakes testing regimes while simultaneously designing and sustaining classroom assessment methods that embody the social participatory nature of learning and reflect research on effective practice p 289 The volume also describes the shared characteristics of the teachers who created these assessments especially their emphasis on self reflection and student autonomy as well as their professional willingness to take on challenges associated with performance based assessments even in the face of institutional pressures and external demands

Turning Pragmatism into Practice
Daniel W. Stuckart, 2018-01-11 Despite the founding of the modern social studies curriculum nearly a century ago based on John Dewey's pragmatism philosophy the field has never achieved a significant and broad implementation of his ideas Dewey's instrumentalism offers social studies educators a tool for addressing vexing problems such as whether they should design classroom experiences using a traditional or a social studies approach to learning history the role of digital technologies the purpose and challenges of younger learners working with an expanding horizons curriculum and many more At the same time Dewey's time tested theories describe how students use the social studies curriculum to make meaning as well as provide teachers a blueprint for implementing engaging and interactive lessons We have neglected Dewey which has led to confusion student disinterest and widespread teaching methodologies contrary to theoretical and research best practices Revisiting Dewey provides the why and how of what we do an ideal for creating a challenging and rigorous social studies curriculum while engaging students interests

Social Studies for the Elementary and Middle Grades Cynthia S. Sunal, Mary E. Haas, 2005 Discusses flexible strategies for teaching today's diverse learner the structure of the knowledge to be learned how to help students reconstruct and present ideas and how to translate theory and recent research into lesson plans and units All within a constructivist framework September 9 2013 Ingrid Robinson took this book off the CRC shelf and asked that it be added to the Reserve Books Shelf

A Casebook of Inclusive Pedagogical Practices for Second

Language Teacher Education Amy B. Gooden, 2021-02-05 This casebook is designed to broaden L2 teacher knowledge thinking and practice with regard to making language and learning accessible to all students Language teachers are especially accountable for promoting socially just inclusive decolonizing and multicultural pedagogical practices and curricula at this critical juncture in history this book is intended to raise language teachers awareness of the importance of critically examining and reflecting on the intersectionality of language education and inclusive pedagogical practices Language teacher educators can use this text in their courses and workshops to build on and extend theoretical foundations while making critical practical connections The 12 cases presented here cover a range of inclusive language teaching and learning issues that practitioners are likely to face in their respective teaching contexts All the cases are based on real life dilemmas faced by practitioners in the field and have been informed by discussions with pre service and in service student teachers The cases represent a range of classroom contexts K 12 ESL sheltered English immersion world foreign language and post secondary EAP private charter and public schools and urban and suburban settings The cases are accompanied by pre and post problem sets and in class discussion questions This volume applies the case based pedagogy often used in some fields to that of second language teacher education to encourage pre and in service teachers to grapple with the types of dilemmas and decisions teachers confront every day The cases here are not intended as exemplars of practice to be emulated or illustrations of existing theories instead they are problem based narratives that resist clear cut answers or solutions and remain open ended to stimulate further investigation and reflection The goal is to mimic the complexity of the classroom where teachers confront a range of pedagogical and learning challenges and the ensuing experience requires critical real time decisions that demand keen professional discernment
