The Big Ideas in Physics and How to Teach Them Ben Rogers, 2018-04-18 *The Big Ideas in Physics and How to Teach Them* provides all of the knowledge and skills you need to teach physics effectively at secondary level. Each chapter provides the historical narrative behind a Big Idea, explaining its significance, the key figures behind it, and its place in scientific history. Accompanied by detailed ready-to-use lesson plans and classroom activities, the book expertly fuses the what to teach and the how to teach it, creating an invaluable resource which contains not only a thorough explanation of physics but also the applied pedagogy to ensure its effective translation to students in the classroom. Including a wide range of teaching strategies, archetypal assessment questions, and model answers, the book tackles misconceptions and offers succinct and simple explanations of complex topics. Each of the five big ideas in physics are covered in detail: electricity, forces, energy, particles, and the universe. Aimed at new and trainee physics teachers, particularly non-specialists, this book provides the knowledge and skills you need to teach physics successfully at secondary level and will inject new life into your physics teaching.

Challenging Tradition Perry Shaw, Havilah Dharamraj, 2018-03-31 The surge of theological education in the rapidly growing church of the Majority World has highlighted the inadequacy of traditional Western methods of thinking and learning to fully accomplish the task at hand. The limitations of current theological education are embodied in the formation and assessment of the master's or doctoral dissertation processes that follow a linear empiricist tradition developed in the West and exported to the Majority World. *Challenging Tradition: Innovation in Advanced Theological Studies* highlights the need for these traditions to be reconsidered in every context throughout the world. Drs. Shaw and Dharamraj, with their team of contributors, present innovations in research and documentation that demonstrate how we may better prepare theological leadership through means that are contextually relevant and locally meaningful.
