Tomes,1992 **Becoming Bourgeois** Frank J.

Byrne,2006-10-20 *Becoming Bourgeois* is the first study to focus on what historians have come to call the middling sort the group falling between the mass of yeoman farmers and the planter class that dominated the political economy of the antebellum South Historian Frank J Byrne investigates the experiences of urban merchants village storekeepers small scale manufacturers and their families as well as the contributions made by this merchant class to the South s economy culture and politics in the decades before and the years of the Civil War These merchant families embraced the South but were not of the South At a time when Southerners rarely traveled far from their homes merchants annually ventured forth on buying junkets to northern cities Whereas the majority of Southerners enjoyed only limited formal instruction merchant families often achieved a level of education rivaled only by the upper class planters The southern merchant community also promoted the kind of aggressive business practices that New South proponents would claim as their own in the Reconstruction era and beyond Along with discussion of these modern approaches to liberal capitalism Byrne also reveals the peculiar strains of conservative thought that permeated the culture of southern merchants While maintaining close commercial ties to the North southern merchants embraced the religious and racial mores of the South Though they did not rely directly upon slavery for their success antebellum merchants functioned well within the slave labor system When the Civil War erupted southern merchants simultaneously joined Confederate ranks and prepared to capitalize on the war s business opportunities regardless of the outcome of the conflict Throughout *Becoming Bourgeois* Byrne highlights the tension between these competing elements of southern merchant culture By exploring the values and pursuits of this emerging class Byrne not only offers new insight into southern history but also deepens our understanding of the mutable ties between regional identity and the marketplace in nineteenth century America *Family Properties* Beryl Satter,2010-03-02 Part family story and part urban history a landmark investigation of segregation and urban decay in Chicago and cities across the nation The promised land for thousands of Southern blacks postwar Chicago quickly became the most segregated city in the North the site of the nation s worst ghettos and the target of Martin Luther King Jr s first campaign beyond the South In this powerful book Beryl Satter identifies the true causes of the city s black slums and the ruin of urban neighborhoods throughout the country not as some have argued black pathology the culture of poverty or white flight but a widespread and institutionalized system of legal and financial exploitation In Satter s riveting account of a city in crisis unscrupulous lawyers slumlords and speculators are pitched against religious reformers community organizers and an impassioned attorney who launched a crusade against

the profiteers the author's father Mark J Satter At the heart of the struggle stand the black migrants who having left the South with its legacy of sharecropping suddenly find themselves caught in a new kind of debt peonage Satter shows the interlocking forces at work in their oppression the discriminatory practices of the banking industry the federal policies that created the country's shameful dual housing market the economic anxieties that fueled white violence and the tempting profits to be made by preying on the city's most vulnerable population *Family Properties Race Real Estate and the Exploitation of Black Urban America* is a monumental work of history this tale of racism and real estate politics and finance will forever change our understanding of the forces that transformed urban America Gripping This painstaking portrayal of the human costs of financial racism is the most important book yet written on the black freedom struggle in the urban North David Garrow *The Washington Post* [Resources in Education](#) ,2001-04 *The Roman Mourner* Valerie M.

Hope,2025-06-12 To date mourning has not featured prominently in studies of ancient Roman society and this book redresses this by presenting a comprehensive analysis of who mourners were and what mourners did as well as investigating the social cultural and ritual significance of mourning It brings together varied evidence ranging from literature and art to epigraphy which helps to illustrate the rituals of mourning Valerie M Hope addresses fundamental questions about how mourning was expressed displayed performed and experienced via the body and in turn what mourning can reveal about Roman society In previous literature on the topic roles played by mourners in funeral rituals and commemorative acts may be acknowledged but there has been little engagement with the varied emotional and physical behaviours of mourners When mourning has been considered the emphasis has predominantly fallen on gender and specific literary genres There have hitherto been few attempts to unite the diverse evidence for Roman mourning to consider different literary genres simultaneously or to evaluate how mourning was presented through material culture The evaluation of social expectations legal regulations and idealised roles across a diverse evidence base and time frame make this volume the first full and systematic study of mourning in the Roman world *Poverty and Sickness in Modern Europe* Andreas Gestrich,Elizabeth Hurren,Steven King,2012-06-28 Explores the experiences of the sick poor in modern Europe via an analysis of pauper narratives

Letters, Kinship, and Social Mobility in Nigeria Olufemi Vaughan,2023-08-15 In 2003 Olufemi Vaughan received from his ninety five year old father Abiodun a trove of more than 3 000 letters written by four generations of his family in Ibadan Nigeria between 1926 to 1994 The men and women who wrote these letters had emerged from the religious social and educational institutions established by the Church Missionary Society the preeminent Anglican mission in the Atlantic Nigerian region following the imposition of British colonial rule Abiodun recruited to be a civil servant in the colonial administration became the patriarch of a prominent family with historical roots in both West Africa and the Americas his family was the subject of articles in *Ebony* and *Jet* as well as in acclaimed histories Reading deeply in these letters Olufemi realized he had a unique set of sources that could be used to illuminate everyday life for this important segment of Nigerian

society Letter writing was a dominant form of communication for western educated elites in colonial Africa especially in Nigeria Exposure and an altruistic sense of nationalism were among the factors that led people to begin exchanging letters particularly in their interactions with British colonial authorities Through careful textual analysis and broad contextualization Vaughan reconstructs dominant storylines including themes such as people s relationships with colonial authorities and bureaucracy ideas about faith and kinship nationalism and communal development Vaughan brings his prodigious skills as a historian to bear on this wealth of information bringing to life a portrait at once intimate and expansive of a community during a transformative period in African history
