A World Without Email Cal Newport,2021-03-02 A New York Times and Wall Street Journal bestseller From New York Times bestselling author Cal Newport comes a bold vision for liberating workers from the tyranny of the inbox and unleashing a new era of productivity Modern knowledge workers communicate constantly Their days are defined by a relentless barrage of incoming messages and back and forth digital conversations a state of constant anxious chatter in which nobody can disconnect and so nobody has the cognitive bandwidth to perform substantive work There was a time when tools like email felt cutting edge but a thorough review of current evidence reveals that the hyperactive hive mind workflow they helped

create has become a productivity disaster reducing profitability and perhaps even slowing overall economic growth Equally worrisome it makes us miserable Humans are simply not wired for constant digital communication We have become so used to an inbox driven workday that it s hard to imagine alternatives But they do exist Drawing on years of investigative reporting author and computer science professor Cal Newport makes the case that our current approach to work is broken then lays out a series of principles and concrete instructions for fixing it In A World without Email he argues for a workplace in which clear processes not haphazard messaging define how tasks are identified assigned and reviewed Each person works on fewer things but does them better and aggressive investment in support reduces the ever increasing burden of administrative tasks Above all else important communication is streamlined and inboxes and chat channels are no longer central to how work unfolds The knowledge sector s evolution beyond the hyperactive hive mind is inevitable The question is not whether a world without email is coming it is but whether you ll be ahead of this trend If you re a CEO seeking a competitive edge an entrepreneur convinced your productivity could be higher or an employee exhausted by your inbox A World Without Email will convince you that the time has come for bold changes and will walk you through exactly how to make them happen **Lumber World Review** ,1926 Department of State News Letter United States.
