## **Sample Nomination Letters For Customer Service Award:**

**Surprise!** Vincent P. Magnini, 2014-10-05 Modern consumers are being bombarded with information from every angle. They can't handle it and consequently tune out large portions of the information. Consumers therefore often enter service transactions with predetermined mental scripts regarding how they predict the transactions will transpire and are not paying close attention. In order to gain their full attention, firms must find ways to surprise consumers during transactions; that is, firms must spawn mental script deviations for them. Research indicates that these script deviations can cement consumer loyalty. This book details how to create a surprise culture in a service firm. Because a consumer can only be surprised by a given tactic one time and surprise ideas can be copied by competitors, a firm with a culture that generates and implements a constant stream of surprise tactics is one that has the higher edge in achieving success in the modern environment of information overload. **Administrative Notes**, 2003 *National Guard Regulation* United States. **An Inclusive Academy** Abigail J. Stewart, Virginia Valian, 2022-10-11 How colleges and universities can live up to their ideals of diversity and why inclusivity and excellence go hand in hand. Most colleges and universities embrace the ideals of diversity and inclusion, but many fall short, especially in the hiring, retention, and advancement of faculty who would more fully represent our diverse world, in particular women and people of color. In this book, Abigail Stewart and Virginia Valian argue that diversity and excellence go hand in hand and provide guidance for achieving both. Stewart and Valian themselves, senior academics, support their argument with comprehensive data from a range of disciplines. They show why merit is often overlooked; they offer statistics and examples of individual experiences of exclusion, such as being left out of crucial meetings, and they outline institutional practices that keep exclusion invisible, including reliance on proxies for excellence, such as prestige, that disadvantage outstanding candidates who are not members of the white male majority. Perhaps most important, Stewart and Valian provide practical advice for overcoming obstacles to inclusion. This advice is based on their experiences at their own universities, their consultations with faculty and administrators at many other institutions, and data on institutional change. Stewart and Valian offer recommendations for changing structures and practices so that people become successful in ways that benefit everyone. They describe better ways of searching for job candidates, evaluating candidates for hiring, tenure, and promotion, helping faculty succeed, and broadening rewards and recognition. **Taking Charge of Distribution Sales** Gary T.
