

Installing your television set

1 Positioning the television set

Place your TV on a solid stable surface. To avoid danger do not expose the TV to water, or a heat source (e.g. lamp, candle, radiator). Do not obstruct the ventilation grid at the rear.

2 Connecting the aerials

- Insert the aerial plug into the  socket at the rear of the set.
- Connect the power lead to the television and the mains plug into the wall socket (220-240V/50 Hz). For connecting other appliances see page p.12.

3 Switching on

To switch on the set, press the **POWER** key. A green indicator comes on and the screen lights up. Go straight to the Quick Installation chapter. If the TV remains in standby mode (red indicator), press the **P +/-** key on the remote control. The indicator will flash when you use the remote control.

Quick installation

When you turn on the TV set for the first time, a menu is displayed on screen. This menu prompts you to select the country and language for the menus:

If the menu is not displayed, press the **MENU** key to display the menu.

- 1 Use the **^** **v** keys on the remote control to select your country and validate with **>**.
If your country does not appear in the list, select choice "...".
- 2 Next select your language using the **^** **v** keys and validate with **>**.

Plug & Play

- 1 The search starts automatically. All the available TV programmes and radio stations will be stored. This operation takes a few minutes. The display shows the progress of the search and the number of programs found. At the end of the search, the menu disappears.
To exit or interrupt the search, press **MENU**. If no programme is found, consult the possible solutions p. 14.
- 2 If the transmitter or cable network sends the automatic sort signal, the programs will be numbered correctly. In this case, the installation is complete.
- 3 If this is not the case, you need to use the **Sort** menu to number the programs correctly.
Some transmitters or cable networks broadcast their own sort parameters (region, language, etc.). In this case, indicate your choice using the **^** **v** keys and validate with **>**.

Philips Flat Tv User Manual

Naomi Stanford

Philips Flat Tv User Manual:

Guide to Organisation Design Naomi Stanford, 2007-07-01 Business failure is not limited to start ups In America alone between 1990 and 2000 there were over 6.3 million business start ups and over 5.7 million business shut downs Risk of failure can be greatly reduced through effective organisational design that encourages high performance and adaptability to changing circumstances Organisation design is a straightforward business process but curiously managers rarely talk about it and even more rarely take steps to consciously design or redesign their business for success This new Economist guide explores the five principles of effective organisation design which are that it must be driven by the business strategy and the operating context not by a new IT system a new leader wanting to make an impact or some other non business reason involve holistic thinking about the organisation be for the future rather than for now not to be undertaken lightly it is resource intensive even when going well be seen as a fundamental process not a repair job Racing cars are designed and built They are then kept in good repair **A Guide To The Top 100 Companies In China** Wenxian Zhang, Ilan Alon, 2010-03-22 Under the label of the socialist market economy with Chinese characteristics the Chinese Government has made a firm commitment to economic reform though still retaining tight political control Thus under conditions of liberal economic systems and autocratic rule a new capitalist system is emerging in China its top companies are managed by private entrepreneurs government bodies or a combination of both This book presented in an easily accessible format fills an important gap in the growing literature on China in the global economy and provides a research reference tool on China's top companies It offers a comprehensive directory listing of the Top 100 corporations in China thus enhancing the research potential on China for students researchers and businesses As a general reference guide to the Chinese economy **A Guide to the Top 100 Companies in China** provides up to date and comprehensive coverage of the top Chinese enterprises Corporations from Hong Kong and Taiwan that conduct significant business in China are also included **TV Guide**, 2004 **Handbook of Display Technology** Joseph A. Castellano, 2012-12-02 This book presents a comprehensive review of technical and commercial aspects of display technology It provides design engineers with the information needed to select proper technology for new products The book focuses on flat thin displays such as light emitting diodes plasma display panels and liquid crystal displays but it also includes material on cathode ray tubes Displays include a large number of products from televisions auto dashboards radios and household appliances to gasoline pumps heart monitors microwave ovens and more For more information on display technology go to the experts <http://www.insightmedia.info> **The Complete Idiot's Guide to Growing Your Business with Google** Dave Taylor, 2005-08-02 The search engine for success Using the Internet to increase the visibility of a small business today is no easy task It can take a lot of time energy and money especially if you're not a computer expert Here readers can get a valuable overview of how search engines web sites ad services and web logs can all work together to build a business as well as practical hands on tips tricks and planning tools to help readers create and execute a plan that

utilizes the Internet to its fullest Google is widely recognized as the world's largest search engine an easy to use free service that usually returns relevant results in a fraction of a second Author holds an MBA and has started and run several small businesses in addition to being a well known technology book author Perfect for the entrepreneur and small business market
