Fast Pitch Softball Pitching Made Easy Claude Deschamps, Dave Pearce, Sandy Clubb, Softball Canada, 1980

What's the Count? Tom Dodd, 2017-07-10 In any competition an athlete is looking for an edge An advantage on the opponent that will increase the chances of winning Having an advantage does not guarantee a victory but having it supplies a benefit that will put the athlete in a favorable position to succeed How then do you get an advantage on your opponent in the game of fastpitch softball Since fastpitch softball is primarily a series of individual battles between the pitcher and the batter a victory in these battles is the key to an individual s success at the game It is also typically the key to a team s success because the outcome of any game is usually determined by who wins most of these battles What s the Count gives you a plan to consistently gain an advantage in these battles This book is about having an advantage knowing what it is and then making the most of it It provides a mental map for you to succeed in softball much like a road map provides you with a way to succeed in finding an unknown destination Without a map guide or plan you can easily get lost whether it s on the road or in a softball competition If you are a pitcher the mental plan in this book shows you how to keep and increase the advantage you start with at the beginning of every at bat If you are a batter it shows you what is required for you to take the advantage away from the pitcher and have it yourself When followed these plans will help steer you to success in the one on one pitcher batter battles To allow you to visualize the mental plans in action and to understand the thinking process that takes place I have included a story based on an actual real game situation at the end of each chapter These stories are shaded with a gray background The stories are re created from memory and I have rendered them to the best of my ability In some cases names and personal information have been changed or omitted to preserve anonymity With each story you should note three important things First and foremost the thought process that takes place in each situation Second how command of the pitch provides an advantage to the pitcher And third how aggressipline provides an advantage to the batter The mental plans explained in What s the Count are time tested and proven to work I used them myself and became an NCAA National Championship pitcher at UC Irvine I used them with my daughters and they both became ALL CIF pitchers in high school I used them with my travel teams to win two ASA Class A National Championships and I used them with two different high school teams to win CIF Titles It is now my privilege to share them with you These plans will work for anyone and will help average talented players compete with players of superior talent Knowing these plans are a part of becoming a self made player A self made player is one who works hard to master the skills techniques and discipline necessary to become good rather than rely solely on her athletic ability How do I know these plans will work for you and help turn you into a self made player I know because they did it for my daughter Lisa Dodd When understood and executed well the mental plans provided in What s the Count will help raise your level of play allow you to attain your highest potential and give you an edge to consistently prevail over your competition on the field and for those athletic scholarships to top rated softball schools like

UCLA I know because this is what they did for Lisa Dodd It is my wish that they do the same thing for you Tom **Focused for Fastpitch** Gloria Solomon,Andrea Becker,2004 Annotation Focused for Fastpitchcombines the best qualities of a drill book and a softball specific guide to sport psychology ensuring that come game time everyone will play at peak performance Informative yet easy to read mastering the Focused for Fastpitchtraining principles requires no prior experience and each chapter includes interactive exercises and charts to help monitor progress Each drill clearly specifies the mental and physical skills targeted the goal proper execution coaching tips and variations for increasing or decreasing difficulty And for additional insight into successful skill building some favorite drills are included from these top coaches Gayle Blevins University of Iowa Tami Brown All American Softball School s College Prep Program Connie Clark University of Texas Michelle Gromacki California State University Fullerton Jacquie Joseph Michigan State University Brian Kolze University of the Pacific Patrick Murphy University of Alabama Coaching staff University of California Davis John Reeves University of California Kathy Strahan California State University SacramentoIntegrating concentration confidence mental imagery and energy regulation at practice with softball specific drills will result in players reaching their potential far sooner than practicing any of these aspects alone Applying the information in Focused for Fastpitchis the best way to gain the advantage
