

Physical Science 101 - Kinematically Weighting

Proposed:

We want your input on the principle that we propose to use in a new weighting system.

Background:

Research will be done
to determine if the proposed weighting system is
feasible and if it is, it will be used in the new weighting system.

Proposed:

1. The proposed weighting system will be:

A system of weights, independent of the subject.

These weights:

Will be determined by the research project and will be used in the new weighting system.

2. The proposed weighting system will be: a system of weights, independent of the subject, that will be used in the new weighting system. The proposed weighting system will be a system of weights, independent of the subject, that will be used in the new weighting system. The proposed weighting system will be a system of weights, independent of the subject, that will be used in the new weighting system.

The difference is: subject matter is subject matter is subject matter.

3. The proposed weighting system will be: a system of weights, independent of the subject, that will be used in the new weighting system.

4. Using the proposed weighting system, all the subjects will be used in the new weighting system. Using the proposed weighting system, all the subjects will be used in the new weighting system. Using the proposed weighting system, all the subjects will be used in the new weighting system.

5. The proposed weighting system will be: a system of weights, independent of the subject, that will be used in the new weighting system. The proposed weighting system will be a system of weights, independent of the subject, that will be used in the new weighting system.
