Resources in Education ,1989 **Feeding Wild Birds in America** Paul J. Baicich,Margaret A. Barker,Carrol L.
Henderson,2015-01-28 Today according to the US Fish and Wildlife Service more than fifty million Americans feed birds
around their homes and over the last sixty years billions of pounds of birdseed have filled millions of feeders in backyards
everywhere Feeding Wild Birds in America tells why and how a modest act of provision has become such a pervasive popular
and often passionate aspect of people s lives Each chapter provides details on one or more bird feeding development or trend
including the discovery of seeds the invention of different kinds of feeders and the creation of new companies Also woven

into the book are the worlds of education publishing commerce professional ornithology and citizen science all of which have embraced bird feeding at different times and from different perspectives The authors take a decade by decade approach starting in the late nineteenth century providing a historical overview in each chapter before covering topical developments such as hummingbird feeding and birdbaths On the one hand they show that the story of bird feeding is one of entrepreneurial invention on the other hand they reveal how Americans through a seemingly simple practice have come to value the natural world
