compelling text and dramatic photographic essay convey the emotional power of the death rituals of a small Greek village the funeral the singing of laments the distribution of food the daily visits to the graves and especially the rite of exhumation These rituals help Greek villagers face the universal paradox of mourning how can the living sustain relationships with the dead and at the same time bring them to an end in order to continue to live meaningfully as members of a community That is the villagers dilemma and our own Thirty one moving photographs reproduced in duotone to do justice to their great beauty combine with vivid descriptions of the bereaved women of Potamia and with the words of the funeral laments to allow the reader an unusual emotional identification with the people of rural Greece as they struggle to integrate the experience of death into their daily lives Loring M Danforth's sensitive use of symbolic and structural analysis complements his discussion

Time Is a Plant Michael Marder, 2023-09-14 Our world is vegetal None of it would have been in existence were it not for the life activity of plants Time discernible in the rhythms intervals logics articulations and disarticulations of the world is the time of plants Starting from scientific philosophical and theological insights into the time of plants Michael Marder's new study gently steers readers toward the vegetality of time Specters and spirits cosmic trees and phytogenesis the vegetal apriori and weird chronos the seeds of events and the branches of divergent chronologies diachronic phases and symbiotic assemblages join the rich tapestry of this work to proclaim Time is a plant Michael Marder's Time Is a Plant is philosophy at its most productive As far as imaginable from the postmodern conundrum it states its premise openly in its title and elaborates it in a clear way with impeccable logic The life of a plant in all its alterations its generation and decay is treated as more than just a metaphor of time it renders visible the innermost structure of the deployment of time What makes Marder's book unique is the very feature that makes it naive in the best sense of the term Marder ignores all the endless self reflexive precautions that characterize much of contemporary thought and simply plunges into basic ontological considerations Time Is a Plant is a breath of fresh air in our stale philosophical scene It proves that a thing can be done by simply doing it Slavoj Žižek author of Surplus Enjoyment A Guide for the Non Perplexed 2022 and Freedom A Disease without Cure 2023
