KINGCADDY - The World's FIRST Motorised Golf Buggy with Suspension

TROUBLESHOOTING GUIDE FOR KINGCADDY PLATINUM

WHEN I PLUG A BATTERY IN, THE BUGGY DOESN'T MOVE

Be sure to check that the battery you are using has the correct connector on the battery. If you plug a battery in with the wrong connector, the buggy will not work and damage can be done to the battery or the buggy controller. The connector must connect to the plug on the battery with red lead to red lead and the black lead to the black lead.

Double check the charge in the battery. You can check the operation of the buggy with a different known charged battery and test the operation. If the buggy works then there is a problem with the battery charge. Take the battery and charge to your nearest service agent for checking.

If the battery condition is ok, check the connection to make sure it is not broken or damaged. If it is damaged you can simply purchase another battery lead from the spare parts section and replace the damaged part.

If the battery connection appears to be ok and the battery is ok, there may be a problem elsewhere. Make sure the speed control is turned off and the switch is switched off. Wait for 5 seconds then slowly rotate the switch and speed pot to forward motion. If the problem persists, take the buggy, battery and charger to your nearest service agent for repairs.

NO HANDLE LIGHT AT ALL WHEN I PLUG THE BATTERY IN

- Check the battery is charged. You can use the battery charger to check the battery charge, or get some help checking the voltage of the battery. You can try another compatible battery that you know is good. If this fixes the problem, take the battery and charger to the nearest Kingcaddy service outlet and they will help you get going again.

- Check the wiring from the battery tray up to the handle. If the wire is broken or damaged then the light might not come on and the control modes not work properly. If you can wriggle the exposed wiring and the handle light comes on intermittently, then there is a problem with the handle wiring. Take the buggy to the nearest Kingcaddy service outlet and they will help you get going again.
