Animal Assisted Therapy in Counseling Cynthia K. Chandler, 2012-04-23. Animal Assisted Therapy in Counseling is the most comprehensive book available dedicated to training mental health practitioners in Animal Assisted Therapy (AAT). It explains the history and practice of AAT in counseling, discusses the latest empirical research, and provides an in-depth explanation of the psychodynamics of AAT within various theoretical frameworks. Readers will learn the proper way to select, train, and evaluate an animal for therapy. The use of a number of different therapy animals is considered, including dogs, cats, horses, birds, farm animals, rabbits, and other small animals, and dolphins. Guidelines for implementing AAT in settings such as private practices, community agencies, schools, hospices, and prisons are covered, as well as ethical and legal considerations, risk management, diversity issues, and crisis and disaster response applications. Numerous case examples illustrate the use of AAT principles with clients, and forms, client handouts, and other resources provide valuable tools. This unique resource is an indispensable guide for any counselor looking to develop and implement AAT techniques in his or her practice.

Essential Interviewing and Counseling Skills Tracy A. Prout, Melanie J. Wadkins, 2014-03-27. This is the only comprehensive text to focus on the development of practical interviewing and counseling skills for master's level mental health counseling students. It is structured around the goals established by the CACREP's 2009 document on standards for MHC programs and uniquely encompasses both theory and practice from the perspectives of a diverse array of theoretical schools and practice strategies. The benefits of integrating complementary therapy approaches according to the needs of the client and the importance of multicultural considerations in interviewing and counseling are consistent themes throughout. The book's hands-on guidance regarding interviewing and counseling skills, along with its embrace of different therapeutic modalities, will enable students to learn how to provide care to clients that is tailored to their specific needs. Each chapter includes a highlighted section that draws students' attention to topics related to diversity, and strategies for working with clients from a variety of populations. Issues related to race, ethnicity, immigration, and country of origin are highlighted, along with age, gender, sexual orientation, religion, language, and physical and cognitive abilities. The use of case examples from multiple theoretical orientations offers a realistic view of what actually occurs in a consulting room.
