Empowered Educators in Canada Carol

Campbell, Ken Zeichner, Ann Lieberman, Pamela Osmond-Johnson, 2017-03-13 **BEST PRACTICES FROM CANADA'S HIGH PERFORMING SCHOOL SYSTEMS** Empowered Educators in Canada is one volume in a series that explores how high performing educational systems from around the world achieve strong results. The anchor book *Empowered Educators: How High Performing Systems Shape Teaching Quality Around the World* is written by Linda Darling-Hammond and colleagues with contributions from the authors of this volume. *Empowered Educators in Canada* details the core commonalities that exist across Canada with special emphasis on the localized nature of the systems, a hallmark of Canadian education. Canada boasts a highly educated population and the provinces/territories truly value education as evidenced by the significant proportion of public funds allocated to schooling. Operated by the provinces and territories, participation in kindergarten, primary and secondary education is close to 100% across the nation. In addition to offering traditional academics, secondary education includes opportunities for students to attend technical and vocational programs. To demonstrate exemplary education systems, the authors examine two top performing jurisdictions: Alberta and Ontario, which have developed strong supports for teacher development. Canadian teachers are highly qualified and salary scales in all jurisdictions are typically based on a teacher's level of education and years of experience. While Canada has enjoyed much educational success, the education of First Nations students has historically been one of the country's more controversial and contentious issues. Overall, Canada is a country that is proud of its education system and places a high value on and participation in publicly funded education.

Schools as Professional Learning Communities Sylvia M. Roberts, Eunice Z. Pruitt, 2009 Build a community in your school and improve learning outcomes with this one-stop sourcebook that features the latest educational issues, new research-based strategies and activities, and more. *A Roadmap for Transformative Science Teacher Leadership* Arthur

Eisenkraft, 2025-02-12 This book is a comprehensive guide to an effective Science Education Fellowship (SEF) program. Spanning more than ten years and involving hundreds of teachers, District Science Coordinators, and university faculty, the Wipro SEF program has empowered teachers to become leaders who drive meaningful, sustainable change in their schools and districts without leaving the classroom. Offering an in-depth look at the SEF program's structure from its foundation in teacher leadership development to its innovative adaptations across seven universities and 35 school districts, the book presents a roadmap for implementing similar programs in other school districts, targeting teacher retention, teacher development, and fostering student growth. Readers will find detailed explanations of key program components and the vital roles of district science coordinators and higher education institutions. Through a mix of theoretical insights, practical strategies, and testimonials from program participants, the book provides a comprehensive model for educators, administrators, and university leaders who aspire to replicate or adapt the SEF program in their own contexts. Ideal for both educators and school administrators, this book will allow you to gain valuable insights into building and sustaining a program that empowers teacher leaders, drives district-wide transformation, and ultimately improves student outcomes in science.
