Accession and Migration Yordanka Valkanova,2016-12-05 The expansion of the European Union in May 2004 through the entry of ten countries from Central and Eastern Europe has generated considerable media interest

interest which was revived by further expansion in January 2007 when Bulgaria and Romania became the latest nations from the east to join. Rather than focus exclusively on changes within the EU labour market and related policy debates this book offers a careful grounded analysis of the social and cultural processes bound up with migration flows between Britain and Bulgaria placing these flows in the wider European perspective. As such Accession and Migration will be of interest not only to migration scholars but also to policy makers at local national and international levels.

Cross-Border Marriages

Apostolos Andrikopoulos, Joëlle Moret, Janine Dahinden, 2023-03-21. Marriages that involve the migration of at least one of the spouses challenge two intersecting facets of the politics of belonging: the making of the good and legitimate citizens and the acceptable family. In Europe cross border marriages have been the target of increasing state controls, an issue of public concern and the object of scholarly research. The study of cross border marriages and the ways these marriages are framed is inevitably affected by states' concerns and priorities. There is a need for a reflexive assessment of how the categories employed by state institutions and agents have impacted the study of cross border marriages. This collection of essays analyses what is at stake in the regulation of cross border marriages and how European states use particular categories e.g. sham, forced and mixed marriages to differentiate between acceptable and non acceptable marriages. When researchers use these categories unreflexively they risk reproducing nation centred epistemologies and reinforcing state informed hierarchies and forms of exclusion. The chapters in this book offer new insights into a timely topic and suggest ways to avoid these pitfalls differentiating between categories of analysis and categories of practice adopting methodologies that do not mirror nation states logic and engaging with general social theory outside migration studies. This book will be of interest to researchers and academics of Sociology, Politics, International Relations, Social and Cultural Anthropology, Human Geography, Social Work and Public Policy. Barring one all the chapters in this book were originally published as a special issue in the Journal of Ethnic and Migration Studies.
