**Reading Between the Lines** Peter C. Patrikis, 2008-10-01 This book presents a collection of new and stimulating approaches to reading in a foreign language The contributors to the volume all place reading at the heart of learning a foreign language and entering a foreign culture and they consider issues and methods of language education from such diverse perspectives as cognitive theory applied linguistics technology as hermeneutic history literary theory and cross cultural analysis The contributors teachers of French German Greek Japanese and Spanish call for language teachers and theorists to refocus on the importance of reading skills Emphasizing the process of reading as analyzing and understanding another culture they document various practical methods including the use of computer technology for enhancing language learning and fostering cross cultural understanding Handbook of Research on New Literacies Julie Coiro, Michele Knobel, Colin Lankshear, Donald J. Leu, 2014-04-04 Situated at the intersection of two of the most important areas in educational research today literacy and technology this handbook draws on the potential of each while carving out important new territory It provides leadership for this newly emerging field directing scholars to the major issues theoretical perspectives and interdisciplinary research pertaining to new literacies Reviews of research are organized into six sections Methodologies Knowledge and Inquiry Communication Popular Culture Community and Citizenship Everyday Literacies Instructional Practices and Assessment Multiple Perspectives on New Literacies Research FEATURES Brings together a diverse international team of editors and chapter authors Provides an extensive collection of research reviews in a critical area of educational research Makes visible the multiple perspectives and theoretical frames that currently drive work in new literacies Establishes important space for the emerging field of new literacies research Includes a unique Commentary section The final section of the Handbook reprints five central research studies Each is reviewed by two prominent researchers from their individual and different theoretical position This provides the field with a sense of how diverse lenses can be brought to bear on research as well as the benefits that accrue from doing so It also provides models of critical review for new scholars and demonstrates how one might bring multiple perspectives to the study of an area as complex as new literacies research The Handbook of Research on New Literacies is intended for the literacy research community broadly conceived including scholars and students from the traditional reading and writing research communities in education and educational psychology as well as those from information science cognitive science psychology sociolinguistics computer mediated communication and other related areas that find literacy to be an important area of investigation Ancient <u>Literacies</u> William A Johnson, Holt N Parker, 2009-02-05 Classicists have been slow to take advantage of the important advances in the way that literacy is viewed in other disciplines including in particular cognitive psychology socio linguistics and socio anthropology On the other hand historians of literacy continue to rely on outdated work by classicists mostly from the 1960 s and 1970 s and have little access to the current reexamination of the ancient evidence This timely volume

attempts to formulate new interesting ways of talking about the entire concept of literacy in the ancient world literacy not in the sense of whether 10% or 30% of people in the ancient world could read or write but in the sense of text oriented events embedded in a particular socio cultural context The volume is intended as a forum in which selected leading scholars rethink from the ground up how students of classical antiquity might best approach the question of literacy in the past and how that investigation might materially intersect with changes in the way that literacy is now viewed in other disciplines. The result will give readers new ways of thinking about specific elements of literacy in antiquity such as the nature of personal libraries or what it means to be a bookseller in antiquity new constructionist questions such as what constitutes reading communities and how they fashion themselves new takes on the public sphere such as how literacy intersects with commercialism or with the use of public spaces or with the construction of civic identity new essentialist questions such as what book and reading signify in antiquity why literate cultures develop or why literate cultures matter The book derives from a conference a Semple Symposium held in Cincinnati in April 2006 and includes new work from the most outstanding scholars of literacy in antiquity e g Simon Goldhill Joseph Farrell Peter White and Rosalind Thomas Readers and Reading Culture in the High Roman Empire William A. Johnson, 2010-06-03 In Readers and Reading Culture in the High Roman Empire William Johnson examines the system and culture of reading among the elite in second century Rome The investigation proceeds in case study fashion using the principal surviving witnesses beginning with the communities of Pliny and Tacitus with a look at Pliny s teacher Quintilian from the time of the emperor Trajan Johnson then moves on to explore elite reading during the era of the Antonines including the medical community around Galen the philological community around Gellius and Fronto with a look at the curious reading habits of Fronto s pupil Marcus Aurelius and the intellectual communities lampooned by the satirist Lucian Along the way evidence from the papyri is deployed to help to understand better and more concretely both the mechanics of reading and the social interactions that surrounded the ancient book The result is a rich cultural history of individual reading communities that differentiate themselves in interesting ways even while in aggregate showing a coherent reading culture with fascinating similarities and contrasts to the reading culture of today The Gospel as Manuscript Chris Keith, 2020 The written accounts of the Jesus tradition in the Gospels have taken a far superior position in the Christian faith to any oral tradition In The Gospel as Manuscript Chris Keith offers a new material history of the Jesus tradition s journey from voice to page showing that the introduction of manuscripts played an underappreciated but crucial role in the reception history of the Gospel Revealing a vibrant period of competitive development of the Jesus tradition wherein the material status of the tradition frequently played as important a role as the ideas that it contained Keith offers one of the most thorough considerations of the competitive textualization and public reading of the Gospels Mark, Manuscripts, and Monotheism Dieter Roth, Chris Keith, 2015-02-26 Mark Manuscripts and Monotheism is organized into three parts Mark s Gospel Manuscripts and Textual Criticism and Monotheism and Early Jesus Devotion With contributors hailing from several different

countries and including both senior and junior scholars this volume contains essays penned in honor of Larry W Hurtado by engaging and focusing upon these three major emphases in his scholarship The result is not only a fitting tribute to one of the most influential New Testament scholars of present times but also a welcome survey of current scholarship Reading in Early Christianity Dan Nässelgvist, 2015-11-02 In Public Reading in Early Christianity Lectors Manuscripts and Sound in the Oral Delivery of John 1 4 Dan N sselqvist investigates the oral delivery of New Testament writings in early Christian communities of the first two centuries C E He examines the role of lectors and public reading in the Greek and Roman world as well as in early Christianity N sselqvist introduces a method of sound analysis which utilizes the correspondence between composition and delivery in ancient literary writings to retrieve information about oral delivery from the sound structures of the text being read aloud Finally he applies the method of sound analysis to John 1 4 and presents the implications for our understanding of public reading and the Gospel of John Comparative Textual Media N. Katherine Hayles, Jessica Pressman, 2013-12-01 For the past few hundred years Western cultures have relied on print When writing was accomplished by a quill pen inkpot and paper it was easy to imagine that writing was nothing more than a means by which writers could transfer their thoughts to readers The proliferation of technical media in the latter half of the twentieth century has revealed that the relationship between writer and reader is not so simple From telegraphs and typewriters to wire recorders and a sweeping array of digital computing devices the complexities of communications technology have made mediality a central concern of the twenty first century Despite the attention given to the development of the media landscape relatively little is being done in our academic institutions to adjust In Comparative Textual Media editors N Katherine Hayles and Jessica Pressman bring together an impressive range of essays from leading scholars to address the issue among them Matthew Kirschenbaum on archiving in the digital era Patricia Crain on the connection between a child's formation of self and the possession of a book and Mark Marino exploring how to read a digital text not for content but for traces of its underlying code Primarily arguing for seeing print as a medium along with the scroll electronic literature and computer games this volume examines the potential transformations if academic departments embraced a media framework Ultimately Comparative Textual Media offers new insights that allow us to understand more deeply the implications of the choices we and our institutions are making Contributors Stephanie Boluk Vassar College Jessica Brantley Yale U Patricia Crain NYU Adriana de Souza e Silva North Carolina State U Johanna Drucker UCLA Thomas Fulton Rutgers U Lisa Gitelman New York U William A Johnson Duke U Matthew G Kirschenbaum U of Maryland Patrick LeMieux Mark C Marino U of Southern California Rita Raley U of California Santa Barbara John David Zuern U of Hawai i at M noa

Current Issues in Reading, Writing and Visual Literacy Helene Christina Demirci, Christina Gitsaki, Melanie Taylor Gobert, 2015-10-28 This volume brings together a collection of papers presented at the 2014 World Congress of the International Association of Applied Linguistics AILA held in Brisbane Australia and represents current research and practice from across the globe related to reading writing and visual literacy Given that globalisation has resulted in an increase in the pursuit of second language often English literacy for those who want to enhance their access to better education and employment options the development of literacy skills cannot be left to chance This book explores current efforts to tease out the variables involved in the development of literacies and will inform educators and teacher trainers of ways to improve classroom pedagogies and increase learner literacy competencies The volume will be of use to both new and seasoned researchers wishing to enhance their understanding of current and emerging perspectives in the development of literacies It will also be of interest to language teachers and language policy makers as the papers address current issues in language education 

Education for Sustainable Development in Foreign Language Learning María de la Fuente, 2021-11-29 This unique volume utilizes the UNESCO Education for Sustainable Development ESD framework to illustrate successful integration of sustainability education in post secondary foreign language FL learning Showcasing a variety of approaches to

using content based instruction CBI in college level courses this text valuably demonstrates how topics relating to environmental social and cultural dimensions of sustainability can be integrated in FL curricula Chapters draw on case studies from colleges throughout the US and consider theoretical and practical concerns relating to models of sustainability based teaching and learning Chapters present examples of project problem and task based approaches as well as field work debate and reflective pedagogies to enhance students awareness and engagement with sustainable development issues as they acquire a foreign language Insights and recommendations apply across languages and highlight the potential contribution of FL learning to promote sustainability literacy amongst learners This text will benefit researchers academics and educators in higher education with an interest in Modern Foreign Languages sustainability education training and leadership more broadly **Approaches to Teaching the Works of C. P. Cavafy** Peter Jeffreys, Demetres P. Tryphonopoulos, 2025-04-26 Known as a preeminent poet of queer male desire C P Cavafy lived most of his life as part of the Greek minority community in Alexandria Egypt He was inspired by the possibilities offered by peripheries whether sexual geographic or historical Volumes of his poems widely translated into English give anglophone readers access to his distinctive mixture of irony and tenderness directness and subtlety This volume will help instructors introduce students to Cavafy s works and explore them from many angles with the help of the extensive archives now available Essays address teaching Cavafy both as a poetic historian of the Hellenistic Roman and Byzantine worlds and through the lens of postcoloniality They also explore how he interpreted classical Greek works and how his work has been interpreted by composers poets and readers within and beyond Greece and the Greek diaspora Cultural Intelligence David A. Livermore, 2009-02 An intercultural ministry expert demonstrates the necessity of Cultural Intelligence for effectively serving an increasingly diverse church and world The Book in Africa C. Davis, D. Johnson, 2015-03-02 This volume presents new research and critical debates in African book history and brings together a range of disciplinary perspectives by leading scholars in the subject It includes case studies from across Africa ranging from third century manuscript traditions to twenty first century internet communications Bookrolls and Scribes in Oxyrhynchus William Allen Johnson, 2004-01-01 Close analysis of formal and conventional features of the bookrolls not only provides detailed information on the bookroll industry but also in turn suggests some intriguing questions and provisional answers about the ways in which the use and function of the bookroll among ancient readers may differ from modern or medieval practice Theory, Research and Pedagogy in Learning and Teaching Japanese Grammar Alessandro G. Benati, Sayoko Yamashita, 2016-10-19 This edited book focuses on the role of different types of pedagogical solutions in the acquisition of the Japanese grammatical system by reviewing assessing and measuring current theory and research Findings from this research have implications for the way Japanese grammar is learned and taught in a classroom context The editors and contributors address a number of questions around the role of Japanese grammar learning and teaching such as what is the role of instruction in Japanese second language

acquisition What are the main findings of empirical research into the acquisition of Japanese grammar Is any one particular pedagogical intervention or solution to the teaching of Japanese grammar more effective than another What pedagogical options do we have for the teaching of Japanese grammar This book offers a unique insight into its practical implications for Japanese language learning and teaching for applied linguists researchers language teaching professionals and curriculum developers alike Skepticism and Belonging in Shakespeare's Comedy Derek Gottlieb, 2015-08-11 This book recovers a sense of the high stakes of Shakespearean comedy arguing that the comedies no less than the tragedies serve to dramatize responses to the condition of being human responses that invite scholarly investigation and explanation Taking its cue from Stanley Cavell's influential readings of Othello and Lear the book argues that exposure or vulnerability to others is the source of both human happiness and human misery while the tragedies showcase attempts at the evasion of such vulnerability through the self defeating pursuit of epistemological certainty the comedies present the drama and the difficulty of turning away from an epistemological register in order to productively respond to the fact of our humanity Where Shakespeare s tragedies might be viewed in Cavellian terms as the drama of skepticism Shakespeare's comedies then exemplify the drama of acknowledgement As a parallel and a preamble Gottlieb suggests that the field of literary studies is itself a site of such revealing responses where competing research methods strive to foreclose upon or alternatively rejoice in epistemological uncertainty such commitments bespeak an urge to avoid or circumvent the human in the practice of scholarship Reading Shakespeare s comedies in tandem with a defactoist view of teaching and learning points in the direction of a new humanism one that eschews both the relativism of old deconstruction and contemporary Presentism and the determinism of various kinds of structural accounts This book offers something new in scholarly and popular understanding of Shakespeare s work doing so with both philosophical rigor and literary attention to the difficult work of reading The Routledge Handbook of Hispanic Applied Linguistics Manel Lacorte, 2014-09-19 This book provides a comprehensive overview of Hispanic applied linguistics allowing students to understand the field from a variety of perspectives and offering insight into the ever growing number of professional opportunies afforded to Spanish language program graduates The goal of this book is to re contextualize the notion of applied linguistics as simply the application of theoretical linguistic concepts to practical settings and to consider it as its own field that addresses language based issues and problems in a real world context The book is organized into five parts 1 perspectives on learning Spanish 2 issues and environments in Spanish teaching 3 Spanish in the professions 4 the discourses of Spanish and 5 social and political contexts for Spanish The book s all inclusive coverage gives students the theoretical and sociocultural context for study in Hispanic applied linguistics while offering practical information on its application in the professional sector
