READING PASSAGE 1

You should spend about 20 minutes on *Questions 1-12* which are based on Reading Passage 2 below.

SPOKEN CORPUS COMES TO LIFE

- A** The compiling of dictionaries has been historically the provenance of studious professorial types - usually bespectacled - who love to pore over weighty tomes and make pronouncements on the finer nuances of meaning. They were probably good at crosswords and definitely knew a lot of words, but the image was always rather dry and dusty. The latest technology, and simple technology at that, is revolutionising the content of dictionaries and the way they are put together.
- B** For the first time, dictionary publishers are incorporating real, spoken English into their data. It gives lexicographers (people who write dictionaries) access to a more vibrant, up-to-date vernacular language which has never really been studied before. In one project, 150 volunteers each agreed to discreetly tie a Walkman recorder to their waist and leave it running for anything up to two weeks. Every conversation they had was recorded. When the data was collected, the length of tapes was 35 times the depth of the Atlantic Ocean. Teams of audio typists transcribed the tapes to produce a computerised database of ten million words.
- C** This has been the basis - along with an existing written corpus - for the Language Activator dictionary, described by lexicographer Professor Randolph Quirk as "the book the world has been waiting for". It shows advanced foreign learners of English how the language is really used. In the dictionary, key words such as "eat" are followed by related phrases such as "wolf down" or "be a picky eater", allowing the student to choose the appropriate phrase.
- D** "This kind of research would be impossible without computers," said Delia Summers, a director of dictionaries. "It has transformed the way lexicographers work. If you look at the word "like", you may intuitively think that the first and most frequent meaning is the verb, as in "I like swimming". It is not. It is the preposition, as in: "she walked like a duck". Just because a word or phrase is

Taylor (C. Mackay). William Cooke Taylor,1846 Rethinking Community through Transdisciplinary Research Bettina Jansen,2019-12-31 This book offers the first interdisciplinary survey of community research in the humanities and social sciences to consider such diverse disciplines as philosophy religious studies anthropology sociology disabilities studies linguistics communication studies and film studies Bringing together leading international experts the collection of essays critically maps and explores the state of the art in community research while also developing future perspectives for a cross disciplinary rethinking of community Pursuing such a critical transdisciplinary approach to community the book argues can counteract reductive appropriations of the term community and instead pave the way for a novel assessment of the concept s

complexity Since community is above all a lived practice that shapes people's everyday lives the essays also suggest ways of redoing community they discuss concrete examples of community practice thereby bridging the gap between scholars and activists working in the field **Workbook for Lectors, Gospel Readers, and Proclaimers of the Word® 2021**

Catherine Cory, 2020 **Corpora, Corpses and Corps** Federico Pio Gentile, 2021-09-08 This book uses corpus and multimodal methods to present a comparative study of three major Canadian TV crime series Flashpoint 2008 2010 Motive 2013 2015 and 19 2 2014 2016 paying special attention to cinematic techniques Following an overview of the methodology and the Canadian cultural milieu of the study the author approaches the three series as complex cultural and linguistic productions that depend heavily on a national appropriation of a genre whose popularity is growing internationally The book investigates the verbal nonverbal and paraverbal strategies employed by each production to create the patterns that make this genre appealing to a variety of audiences and uncovers some of the psychological processes at work in contemporary Canadian TV crime serials This book will be of interest to scholars in fields including Corpus Linguistics Multimodal Studies Canadian Studies Media and Communication Studies and Specialised Discourse **Reason, Rhetoric, and the Philosophical Life in Plato's Phaedrus** Tiago Lier, 2019-06-28 Plato is a well known critic of rhetoric but in the Phaedrus he defends the art of rhetoric arguing that it can be perfected with the aid of philosophy In Reason Rhetoric and the Philosophical Life in Plato's Phaedrus Tiago Lier provides a new and comprehensive interpretation of this important dialogue He argues that Plato's defense of rhetoric is based on philosophy's ethical nature and that philosophy is a way of life rather than a body of knowledge For Plato an essential element of both rhetoric and the philosophical life is that every use of speech whether to persuade or to learn depends upon the psychology of the speaker and the audience Lier shows how Socrates develops a dynamic account of this psychology over the course of the dialogue in order to help Phaedrus understand how he is personally engaged in and shaped by every act of communication Only when we grasp the tension between eros and logos will we discover the limitations of the art of rhetoric and that rhetoric alone cannot show us what we truly desire Instead Lier concludes the greatest power of speech is to reveal to ourselves our own desires and understanding of our place in the world This continual self reflection is the philosophical life around which Socrates and Plato fashion their distinctive forms of rhetoric The insights developed in this book will be of particular relevance to students and scholars of ancient philosophy classics and rhetorical theory but it will also be of interest to those working in political science literary studies and communication studies **The Routledge Handbook of Contemporary English Pronunciation** Okim Kang, Ron I. Thomson, John M. Murphy, 2017-11-08 The Routledge Handbook of Contemporary English Pronunciation provides a comprehensive survey of this field covering both theoretical and practical perspectives on pronunciation In 35 chapters contributed by leading scholars from around the world this Handbook examines linguistic and historical background of sound systems and theoretical issues linked to sound changes pronunciation acquisition and factors related to speech production

pronunciation research and applications to second language pronunciation the link between pronunciation and other language skills including perception and other socio cultural factors pronunciation and its relation to World Englishes The Routledge Handbook of Contemporary English Pronunciation will be essential reading for anyone with an interest in pronunciation **The Routledge Handbook of Discourse Analysis** Michael Handford, James Paul Gee, 2013-06-17 Approaches to discourse analysis Register and genre Developments in spoken discourse Educational applications Institutional applications Identity culture and discourse
