Vol. 20 Issue 9

Monday, February 28, 2011

It is that time of year again. The early days of winter can be very unpredictable. We are wrapped up warm in our coats and scarves one minute and the next, we are thinking about having a picnic on the beach. Every second person is coughing or sneezing. People are miserable and they are complaining about the weather. Mr. Chan, a doctor in St. Peter's Hospital explains "When the air's temperature is fluctuating so frequently, many viruses can grow such as the flu virus. Many patients tend to ignore the common cough and cold and continue about their daily routine. People in general are very hardworking and

therefore when they are feeling a little unwell, they will continue to work as normal. However, this is not always a good idea". Mr. Chan explains that if we push our bodies too hard when we are sick, we risk becoming too ill to work and may require a hospital visit. Also, going to work when we are sick can increase the spread of the illness to others who share our workspace.

Mr Chan's advice is if you have a bad cough or a very runny nose, take a day to rest in bed, drink plenty of water and keep warm.
