area the typical writing requirements and the language expectations of historical discourse History uses language in specialized ways so it can be challenging for students to construct responses to historical events It is only through a focus on these specialized ways of presenting and constructing historical content that students will see how language is used to construe particular contexts This book provides the results of a qualitative study that investigated the language resources that 8th and 11th grade students drew on to write an exposition and considered the role of writing in school history The study combined a functional linguistic analysis of student writing with educational considerations in the underresearched content area of history Data set consisted of writing done by students who were English language learners and other culturally and linguistically diverse students from two school districts in California The book is an investigation of expository school history writing and teachers expectations for this type of writing School history writing refers to the kind of historical writing expected of students at the pre college levels

Bilingualism in the USA Fredric Field, 2011-08-18 This text provides an overview of bi and multilingualism as a worldwide phenomenon It features comprehensive discussions of many of the linguistic social political and educational issues found in an increasingly multilingual nation and world To this end the book takes the Chicano Latino community of Southern California where Spanish English bilingualism has over a century and a half of history and presents a detailed case study thereby situating the community in a much broader social context Spanish is the second most widely spoken language in the U S after English yet for the most part its speakers form a language minority that essentially lacks the social political and educational support necessary to derive the many cognitive socioeconomic and educational benefits that proficient bilingualism can provide The issues facing Spanish English bilinguals in the Los Angeles area are relevant to nearly every bi and multilingual community irrespective of nation language and or ethnicity

English Learners Left Behind Kate Menken, 2008-02-27 In the wake of recent federal legislation entitled No Child Left Behind high stakes standardized testing for accountability purposes is being emphasized in educational systems across the U S for all students including English Language Learners ELLs Yet language proficiency mediates test performance so ELLs typically receive scores far below those of other students This book explores how tests have become de facto language policy in schools shaping what is taught in school how it is taught and in what language s it is taught In New York City while most schools responded to testing by increasing the amount of English instruction offered to ELLs a few schools have preserved native

language instruction instead Moreover this research documents how tests are a defining force in the daily lives of ELLs and the educators who serve them
