

Individual Reflective Report

Name: K** J** C***

Position: Marketer/promoter

My major contribution in this project:

My major contribution as a marketer/promoter are making posters which contain awareness of cervical cancer which the area that we are focusing on in this crowdfunding campaign. I am also assigned in posting online contents into our team's Instagram account, and all members in our team including myself are contributing in a way of promoting the online crowdfunding event to our targeted individuals that we know in order to gain more attention to our online crowdfunding.

Feelings:

My feelings towards the ending of the project is grateful and a bit surprise, because I thought due to the pandemic, not many people will help out since everyone is experiencing hardship. I can't believe we still manage to do well on the online fundraising and I am very grateful that we can make a change on some peoples life by doing the online crowdfunding.

Challenges encountered:

The challenges which I have encountered in the project is this is my first semester doing online classes, even subject like community service in my previous diploma level is easier since we are doing it face to face. Many simple task like team meetings is harder since we are not able to meet physical face to face to discuss. The second challenges is my fear of our marketing contents not able to reach the targeted amount of audience.

Improvements:

There are some areas that I would like to improve which will be my designing skill. After looking at my teammate's posters, I found out that my sense of skill on designing is not that well. Thus, some of my poster will to go through multiple changing in the design. Other than that, I am very happy for our group members teamwork and progress for this assignment.

Sample Individual Reflection Report:

Equipped for the Future Assessment Report Sri Ananda, 2000 Equipped for the Future EFF is a standards based system reform initiative aimed at improving the quality and outcomes of the adult literacy and lifelong learning delivery systems. It is predicated on the concept that the skills adult learners need for success as parents, workers, and citizens go beyond the basic academic skills traditionally targeted by adult education programs. Performance based assessment is an approach to assessment that is congruent with EFF's emphasis on real world performance. This paper introduces instructors who are using the EFF Standards to specific performance based assessment methods that show promise for measuring progress. Following an introduction that explains EFF and the use of performance based assessment, the report contains five additional sections. Section 2 describes the key characteristics of effective performance based assessment methods. Section 3 provides specific examples of performance based assessment methods. Section 4 describes how to evaluate or score student performance on performance based assessment tasks and how to explain results to adult learners and others. Section 5 describes how to develop performance based assessment tasks and prepare students for them. Finally, Section 6 discusses the role of performance based assessment for purposes of instruction and accountability. KC **International Virtual Teams**

Lyons, 2010-04-07 Philosophers have warned of the perils of a life spent without reflection, but what constitutes reflective inquiry and why it's necessary in our lives can be an elusive concept. Synthesizing ideas from minds as diverse as John Dewey and Paulo Freire, the *Handbook of Reflection and Reflective Inquiry* presents reflective thought in its most vital aspects, not as a fanciful or nostalgic exercise but as a powerful means of seeing familiar events anew, encouraging critical thinking and crucial insight teaching and learning. In its opening pages, two seasoned educators, Maxine Greene and Lee Shulman, discuss reflective inquiry as a form of active attention, Thoreau's wide awakeness, an act of consciousness, and a process by which people can understand themselves, their work, particularly in the form of life projects, and others. Building on this foundation, the Handbook analyzes through the work of 40 internationally oriented authors definitional issues concerning reflection, what it is and is not, worldwide social and moral conditions contributing to the growing interest in reflective inquiry in professional education, reflection as promoted across professional educational domains including K-12 education, teacher education, occupational therapy, and the law, methods of facilitating and scaffolding reflective engagement, current pedagogical and research practices in reflection, approaches to assessing reflective inquiry, educators across the professions, as well as adult
