### Investment in the Future

- [illegible]

**Abstract**—The purpose of this study was to determine the effect of a 12-week training program on the heart rate (HR) and heart rate reserve (HRR) of sedentary middle-aged men. The subjects were randomly assigned to a control group (CON) and an exercise group (EX). The EX group performed a 12-week training program consisting of three sessions per week of aerobic exercise. The HR and HRR were measured at rest and during submaximal exercise at the beginning and end of the training period. The EX group showed a significant decrease in HR and HRR at rest and during submaximal exercise compared to the CON group. The results suggest that a 12-week training program can improve the cardiovascular fitness of sedentary middle-aged men.

If you are not satisfied with your results, follow the instructions carefully and test your original article. If the editor still requests the (a) paragraph and (b) and (c) paragraphs, repeat the analysis with the original data. The editor will be notified.

23. When configuring a multi-mount AFS, set `mountmnt` to your Netatun path: `mountmnt=/usr/bin/netatun`
24. If you're using the `afs` multi-mount method, add the `afs` multi-mount entry from `afs` to your `netatun` config. In this example, I'm using `afs` as the multi-mount method, so the `afs` multi-mount entry is not necessary. This is required to allow the `afs` multi-mount entry to be used in the `afs` multi-mount entry.
25. Use the `afs` multi-mount entry to mount `afs` multi-mount.
26. Use the `afs` multi-mount entry to mount `afs` multi-mount.

- Day and night periods that are longer than the standard 24 hours occur most commonly with the use of artificial light or natural light at night. To reduce the risk of circadian rhythm disruption, it is recommended that the amount of artificial light be reduced to the lowest level possible.
- Artificial lights that emit red light with a wavelength of 620 nm or longer are recommended, as the length of the spectrum may be reduced by filtering out the blue light spectrum.
- The use of natural light during the day may help to regulate the circadian rhythm. The presence of natural light during the day may help to regulate the circadian rhythm.
- Natural light is not recommended for the use of artificial light.
- Natural light is not recommended for the use of artificial light.

When you install your T-Value One Connection, improper installation of all four screws (50 connections for One Connection®) will void the warranty. Please, confirm that:

- When a producer's price for the output rises or falls, it must adjust its output level accordingly. A rise in the price of the output will cause a producer to produce more output, and a fall in the price of the output will cause a producer to produce less output.
