Rare Earth Frontiers Julie M. Klinger, 2018-01-15 Rare Earth Frontiers is a work of human geography that serves to demystify the powerful elements that make possible the miniaturization of electronics green energy and medical technologies and essential telecommunications and defense systems Julie Michelle Klinger draws attention to the fact that the rare earths we rely on most are as common as copper or lead and this means the implications of their extraction are global Klinger excavates the rich historical origins and ongoing ramifications of the quest to mine rare earths in ever more impossible places Klinger writes about the devastating damage to lives and the environment caused by the exploitation of rare earths She demonstrates in human terms how scarcity myths have been conscripted into diverse geopolitical campaigns that use rare earth mining as a pretext to capture spaces that have historically fallen beyond the grasp of centralized power These include legally and logistically forbidding locations in the Amazon Greenland and Afghanistan and on the Moon Drawing on ethnographic archival and interview data gathered in local languages and offering possible solutions to the problems it documents this book examines the production of the rare earth frontier as a place a concept and a zone of contestation sacrifice and transformation

Report of the Commissioner of Education United States. Office of Education, 1881

Cancer, Radiation Therapy, and the Market Barbara Bridgman Perkins, 2017-08-16 Appraising cancer as a major medical market in the 2010s Wall Street investors placed their bets on single technology treatment facilities costing 100 300 million each Critics inside medicine called the widely publicized proton center boom crazy medicine and unsustainable public policy There was no valid evidence they claimed that proton beams were more effective than less costly alternatives But developers expected insurance to cover their centers staggeringly high costs and debts Was speculation like this new to health care Cancer Radiation Therapy and the Market shows how the radiation therapy specialty in the United States later called radiation oncology coevolved with its device industry throughout the twentieth century Academic engineers and physicians acquired financing to develop increasingly powerful radiation devices initiated

companies to manufacture the devices competitively and designed hospital and freestanding procedure units to utilize them In the process they incorporated market strategies into medical organization and practice Although palliative benefits and striking tumor reductions fueled hopes of curing cancer scientific research all too often found serious patient harm and disappointing beneficial impact on cancer survival This thoroughly documented and provocative inquiry concludes that public health policy needs to re evaluate market driven high tech medicine and build evidence based health care systems

Report of the Commissioner of Education Made to the Secretary of the Interior for the Year ... with Accompanying Papers United States. Bureau of Education,1881 **Black Girls Experiencing Their Intersectional Identities in School** Crystal L. Edwards,2019-10-17 Black Girls Experiencing Their Intersectional Identities in School explores the subjective experience of Black girls within the educational context Based on interviews diary entries and focus groups the author argues that as a result of their intersectional identities Black girls experience unique challenges and obstacles in the educational setting Addressing topics ranging from interpersonal relationships social media beauty sexuality hypervisibility invisibility and microaggressions this book highlights the voices and experiences of Black girls between the ages of 11 and 15 The Girls provide a narrative account of the challenges they face daily in the educational context describing in detail the factors that maintain and perpetuate volatile conditions Additionally this book explores the coping strategies that this group of Black girls developed to resist and respond to the daily obstacles Ultimately this book not only identifies the unique struggles faced by Black girls in schools as a result of their intersectional identities but most importantly this work explores pragmatic strategies that can be implemented to create safe and beneficial spaces for Black Girls The author argues that through the implementation of Black Feminist Pedagogy an Ethic of Caring and partnerships with Black Girl Empowerment organizations educational practitioners can mediate the negative experiences and create spaces for growth
