Coordination with the steering chairs Dr Kadek Suranata S Pd M Pd Kons and the members of organizing committee is essential for the success of the conference. We sincerely appreciate all the Advisory Boards for the constant support and guidance. It was also a great pleasure to work with such an excellent organizing committee team for their hard work in organizing and supporting the conference. In particular the Scientific Committee led by Cand Dr Robbi Rahim M Kom have completed the peer review process of technical papers and made a high quality technical program. We are also grateful to Students Conference chairs were leading by Ida Ayu Made Diah Paramiswari for their support and all the authors who submitted their papers to the First ICTES 2018. We strongly believe that ICTES conference provides a good forum for all academicians, researchers and practitioners to discuss all Educational science and technology aspects that are relevant to issues and challenge for sustainability in the 4th industrial revolution. We also expect that the future ICTES conference will be as successful and stimulating as indicated by the contributions presented in this volume. **Public Private Partnerships**

in Transport Athena Roumboutsos, 2015-07-28 Over the last thirty years Public Private Partnerships (PPPs) have been used to deliver transport capital projects and services. PPPs are complex arrangements that require a multi disciplinary approach in order to assure their success though research on the subject has been fragmented. This book fills the gap in existing literature by providing insight into these complex arrangements at their various stages of development. Public Private Partnerships in Transport trends and theory is structured to follow the life cycle of a PPP project and strikes a balance between theory and practice. Divided into four parts each section highlights major concerns and offers an array of views and policy recommendations. Parts include context for national implementation, decision models, performance measures and efficiency standards. This book includes an expanded discussion on the findings presented, discussed and analysed at the closing event of the COST Action TU1001 network on the topic of PPPs in transport. The result will be of significant interest to the academic community, policy makers and practitioners.
