Periodicals Directory Carolyn Farquhar Ulrich, 1998 *Faxon ... Librarians' Guide to Serials*, 1991 **The Women of Anna Freud's War Nurseries** Christiane Ludwig-Körner, 2024-02-29 In this volume Christiane Ludwig Körner describes the lives and work of the staff members of the War Nurseries set up and run by Anna Freud and Dorothy Burlingham during the Second World War. *The Women of Anna Freud's War Nurseries* looks in turn at each of the women who helped run the homes in Hampstead: Alice Goldberger, Sophie and Gertrud Dann, Manna Friedmann, Anneliese Schnurmann, Ilse Hellman, and Hansi Kennedy. As young women they narrowly escaped the Holocaust and dedicated themselves to children who had suffered the same fate. Few arrived with any knowledge of psychoanalytic theories or methods; this volume charts their education from Freud and Burlingham, which eventually led to both Freud's independent psychoanalytic child therapy training and the young women's embarkment on careers as professional analysts. Using case studies throughout, Ludwig Körner illustrates the intense relationships often experienced between children in care and their analysts, carers, and uses the children of the War Nurseries as examples for how contemporary psychoanalysts can work with children today. This book is essential reading for psychoanalysts, especially those working with children, as well as scholars and professionals interested in the history of child analysts and childhood trauma. *Bowker Serials Bibliography, Supplement 1972 to Ulrich's International Periodicals Directory, 14th Edition and Irregular Serials and Annuals, 2nd Edition* Carolyn Farquhar Ulrich, 1972 **Metals Abstracts**, 1985 **Negotiating the Complexities of Qualitative Research in Higher Education** Susan R. Jones, Vasti Torres, Jan Arminio, 2021-12-22 *Negotiating the Complexities of Qualitative Research in Higher Education* illuminates the complex nature of qualitative research while attending to issues of application. This text addresses the essentials of research through discussion of strategies, ethical issues, and challenges in higher education. In addition to walking through the methodological steps, this text considers the conceptual reasons behind qualitative research and explores how to conduct qualitative research that is rigorous, thoughtful, and theoretically coherent. Seasoned researchers Jones, Torres, and Arminio combine high-level theory with practical applications and examples showing how research in higher education can produce improved learning outcomes for students, especially those who have been historically marginalized. This book will help students in higher education graduate programs to cultivate an appreciation for the complexity and ambiguity of the research and the ways to think through questions and tensions that emerge in the process. New in This Edition: Emphasis on participant representation and researcher reflexivity and positionality; Additional conceptual frameworks that ground qualitative work in higher education and analyze power to reveal structural inequities; A wider array of approaches including Participatory Action Research, Critical Discourse Analysis, and visual methodologies and methods; A new chapter on writing that covers getting started, writing as analysis, writing to capture complexity, and positioning oneself in writing; Updated citations and content throughout to reflect the newest thinking and scholarship; New end-of-chapter discussion questions and activities to bolster accessibility of theory and help instructors support students work on their course research projects. **Bullying in Schools**
