Brenton, 2016-11-04 This book probes the hollow rhetoric of debt deficits and austerity It explores the decisions of parties of the left which have attempted to deflect criticisms of economic mismanagement and gain trust by depoliticising the budget process and financial management with various rules albeit with elements of discretion The book argues that this is a perverse form of trust as it is premised on the belief that political leaders and the public sector cannot be trusted to make appropriate decisions given the economic circumstances of the time and need rules but at the same time that they can be trusted to follow the rules The book also explores parties of the right which often advocate stricter rules and which tend to be the least effective The book describes how few conservative governments have admirable records on sustained surpluses given a propensity for unsustainable tax cuts and the future opportunities this provides to advance a political program of deeper spending cuts

however they appear disorientated and rudderless crucially lacking the ideological intellectual and organisational vitality which underpinned their strength in the post war political landscape Electorally marginalised seemingly ideologically exhausted and often out of step with the contemporary zeitgeist European social democracy is currently in profound need of revision and renewal potentially its very existence as a political force is under threat This book marks a serious attempt to forge the intellectual backbone of a renewed social democracy fit for the twenty first century Bringing together leading academics political thinkers and policy experts it offers a new and original perspective on ideological and policy innovation and will be invaluable reading for anyone interested in the future of social democracy
