The Economy of Prestige James F. English, 2008-12-15 This is a book about one of the great untold stories of modern cultural life the remarkable ascendancy of prizes in literature and the arts Such prizes and the competitions they crown are almost as old as the arts themselves but their number and power and their consequences for society and culture at large have expanded to an unprecedented degree in our day In a wide ranging overview of this phenomenon James F English documents the dramatic rise of the awards industry and its complex role within what he describes as an economy of cultural prestige Observing that cultural prizes in their modern form originate at the turn of the twentieth century with the institutional convergence of art and competitive spectator sports English argues that they have in recent decades undergone an important shift a more genuine and far reaching globalization than what has occurred in the economy of material goods Focusing on the cultural prize in its contemporary form his book addresses itself broadly to the economic dimensions of culture to the rules or logic of exchange in the market for what has come to be called cultural capital In the wild proliferation of prizes English finds a key to transformations in the cultural field as a whole And in the specific workings of prizes their elaborate mechanics of nomination and election presentation and acceptance sponsorship publicity and scandal he uncovers evidence of the new arrangements and relationships that have refigured that field **Country Life**, 1905 **Richard**

This book first published in 1987 tells the intriguing and culturally complex story of the art school influence on postwar British popular music Following Romantic attitudes from life class to recording studio it focuses on two key moments the early 1960s when art students like John Lennon and Eric Clapton begin to play their own versions of American rock and blues and inflected youth music with Bohemian dreams and the late 1970s when punk musicians emerged from design courses and fashion departments to disrupt what were by then art rock routines Sixties rock Bohemians and seventies pop Situationists were in their different ways trying to solve the art students perennial problem how to make a living from their art Art Into Pop shows how this problem has been shaped by the history of British art education from its nineteenth century origins to current arguments about pure and applied training In their simultaneous pursuit of authenticity and artifice art school musicians exemplify the postmodern condition the collapse of any distinction between high and low culture the confusions of personal and commercial creativity And so high pop theorists rub shoulders here with low pop practitioners experimental musicians debate avant garde ideas with corporate packagers and artistic integrity becomes a matter of making oneself up

Gardening Illustrated, 1914 **Prehistoric Pictures and American Modernism** Elke Seibert, 2023-09-21 In April 1937 the Museum of Modern Art in New York hosted an exhibition that served as a catalyst for the appropriation of prehistoric rock art in postwar abstract painting With the title Prehistoric Rock Pictures in Europe and Africa it displayed a range of copies from the influential collection of the German ethnologist Leo Frobenius Largely disregarded in modern American art history up until now this book highlights the importance of this exhibition to artists such as Josef Albers Adolph

Gottlieb David Smith and The American Abstract Artists group who sought inspiration from the prehistoric images primordial creativity With a transnational scope this book reveals new facts about the connections between Paris and New York and the importance of communication and collaboration between them for these artists In doing so Seibert shows that this debate was about more than just legitimizing abstract art forms from the past but about recognizing an autonomous American abstract art Presenting unseen archival material letters and exhibition documentation *Prehistoric Pictures and American Modernism* offers a new reading of the development of modern American abstraction and will hold an important place in the historiography of the movement its global traditions and its legacy **The Chautauquan** ,1886 *Tree and Serpent: Early Buddhist Art in India* John S. Guy,2023-07-17 A pioneering study of the emergence of Buddhist art in southern India featuring vibrant photography of rare works many published here for the first time Named for two primary motifs in Buddhist art the sacred bodhi tree and the protective snake *Tree Serpent Early Buddhist Art in India* is the first publication to foreground devotional works produced in the Deccan from 200 BCE to 400 CE Unlike traditional narratives which focus on northern India where the Buddha was born taught and died this groundbreaking book presents Buddhist art from monastic sites in the south Long neglected this is among the earliest surviving bodies of Buddhist art and among the most sublimely beautiful An international team of researchers contributes new scholarship on the sculptural and devotional art associated with Buddhism and masterpieces from recently excavated Buddhist sites are published here for the first time including Kanaganahalli and Phanigiri the most important new discoveries in a generation With its exploration of Buddhism s emergence in southern India as well as of India s deep commercial and cultural engagement with the Hellenized and Roman worlds this definitive study expands our understanding of the origins of Buddhist art itself *Acrobatic Modernism from the Avant-Garde to Prehistory* Jed Rasula,2020-02-27 This is a book about artistic modernism contending with the historical transfigurations of modernity As a conscientious engagement with modernity s restructuring of the lifeworld the modernist avant garde raised the stakes of this engagement to programmatic explicitness But even beyond the vanguard the global phenomenon of jazz combined somatic assault with sensory tutelage Jazz like the new technologies of modernity re calibrated sensory ratios The criterion of the new as self making also extended to names pseudonyms and heteronyms The protocols of modernism solicited a pragmatic arousal of bodily sensation as artistic resource validating an acrobatic sensibility ranging from slapstick and laughter to the pathos of bereavement Expressivity trumped representation The artwork was a diagram of perception not a mimetic rendering For artists the historical pressures of altered perception provoked new models and Ezra Pound s slogan *Make It New* became the generic rallying cry of renovation The paradigmatic stance of the avant garde was established by Futurism but the discovery of prehistoric art added another provocation to artists Paleolithic caves validated the spirit of all over composition unframed and dynamic Geometric abstraction Constructivism and Purism and Surrealism were all in quest of a new mythology Making it new yielded a new pathos in the sensation of radical discrepancy between futurist striving and

remotest antiquity The Paleolithic cave and the USSR emitted comparable siren calls on behalf of the remote past and the desired future As such the present was suffused with the pathos of being neither but subject to both *Poultry, Garden and Home*, 1899 **The National Builder**, 1903 *The Bible in Photography* Sheona Beaumont, 2024-01-25 Sheona Beaumont addresses the untold story of biblical subjects in photography She argues that stories characters and symbols from the Bible are found to pervade photographic practices and ideas across the worlds of advertising and reportage the book and the gallery in theoretical discourse and in the words of photographers themselves Beaumont engages interpretative tools from biblical reception studies art history and visual culture criticism in order to present four terms for describing photography's latent spirituality the index the icon the tableau and the vision Throughout her journey she includes lively discussion of selected fine art photography dealing with the Bible in surprising ways from images by William Henry Fox Talbot in the 19th century to David Mach in the 21st Far from telling a secular story photography and the conditions of its representations are exposed in theological depth Beaumont skillfully interweaves discussion of the images and theology arguing for the dynamic and potent voice of the Bible in photography and enriching visual culture criticism with a renewed religious understanding
