Rocket Math Multiplication:

Rocket Math Multiplication Margaret SHEPHERD,2021-04-18 Easy to use and a fun way to learn math This book is for the ages of children between 5 10 It s a new fun way to study math Great for homeschooling and home study *The Effects of Rocket Math on the Automaticity of Multiplication Basic Facts in Fifth Grade Students* Meagan Rolfes,2011 The purpose of this study was to measure the effects of Rocket Math on the automaticity of basic multiplication facts in 5th grade students The action research project took place in a 5th grade classroom The students used Rocket Math over a nine week period This nine week study consisted of 22 5th grade students 12 male and 10 female All students received the treatment and data was collected on students whose pre test scores were below 20 % The data collection group consisted of three males and four females A teacher designed assessment was used as the pre test and post test to determine growth Students participated in the treatment three days per week by taking a one minute timed test A two minute timed test was administered weekly to monitor progress Teacher anecdotal notes were kept to record observations during the study Results from the post test indicated an increase in the number of correct answers given during a two minute test Results for this study indicate a possible gain in automaticity of basic multiplication facts Further research is needed to determine if the conclusions of this study would be applicable to a generalized population A Study about the Effectiveness of the Rocket Math Program to Achieve Multiplication Facts (0-9) Fluency, Automaticity, and Mastery Maureen V. Hudson,2012 The purpose of this study

was to examine if the Rocket Math Mastering Math Facts instructional program Crawford 2003 was effective to produce high student growth in multiplication fact 0 9 fluency automaticity and mastery for 37 fourth grade students at a medium sized suburban rural school district in the Midwest during the 2011 2012 academic year The research included findings that answered the question Is there a difference in student mean scores between pre and post student test scores The data was also analyzed to establish student growth and mastery of multiplication facts taken from abstract **Division and**

Multiplication Rebecca Wingard-Nelson,2014-01-01 Readers learn to do long division with remainders how to multiply two digit numbers and get great tips for solving word problems Multiply and divide fractions and decimals and learn how to estimate This book can be read from beginning to end or used to review a specific topic **110 Amazing Apps for**

Education Rane Anderson,2012-02-01 Here s an easy to use quick reference guide for apps that supplement student learning It gives suggestions for how teachers can implement each app in the classroom and for how parents can use the apps at home to extend their child s learning This resource is correlated to the Common Core State Standards is aligned to the interdisciplinary themes from the Partnership for 21st Century Skills and supports core concepts of STEM instruction 136pp *Traditional Math: An effective strategy that teachers feel guilty using* Barry Garelick,J. R. Wilson,2022-11-04

Despite experiencing our teaching in different times we are both oriented to traditional math teaching It wasn t because we were both taught that way as some may believe but because that method worked for us and we have seen it work for our

students It is efficient effective non confusing and helped our students develop mathematical reasoning understanding and confidence Most importantly it helped them to be successful So begins the book on traditional math which provides a glimpse of what explicit instruction looks like in the classroom for grades K through 8 Barry Garelick and J R Wilson are retired math teachers who describe the methods of traditionally taught math that they used in their teaching Their descriptions serve two purposes 1 It provides assurance to teachers who may already practice these methods that they are not alone and 2 For others it may provide some new ideas *Reconceptualizing Early Mathematics Learning* Lyn D. English, Joanne T. Mulligan, 2013-05-09

This book emanated primarily from concerns that the mathematical capabilities of young children continue to receive inadequate attention in both the research and instructional arenas Research over many years has revealed that young children have sophisticated mathematical minds and a natural eagerness to engage in a range of mathematical activities As the chapters in this book attest current research is showing that young children are developing complex mathematical knowledge and abstract reasoning a good deal earlier than previously thought A range of studies in prior to school and early school settings indicate that young learners do possess cognitive capacities which with appropriately designed and implemented learning experiences can enable forms of reasoning not typically seen in the early years Although there is a large and coherent body of research on individual content domains such as counting and arithmetic there have been remarkably few studies that have attempted to describe characteristics of structural development in young students mathematics Collectively the chapters highlight the importance of providing more exciting relevant and challenging 21st century mathematics learning for our young students The chapters provide a broad scope in their topics and approaches to advancing young children s mathematical learning They incorporate studies that highlight the importance of pattern and structure across the curriculum studies that target particular content such as statistics early algebra and beginning number and studies that consider how technology and other tools can facilitate early mathematical development Reconceptualising the professional learning of teachers in promoting young children s mathematics including a consideration of the role of play is also addressed **My iPad for Kids** Sam Costello, 2012-06-04

Step by step instructions and corresponding step number callouts on photos show you exactly what to do Help when you run into problems or limitations of your iPad or its apps and you need to figure out what to do Tips and Notes to help you get the most out of your iPad and its apps Costello Full color step by step tasks walk you through learning how to use your iPad for home school and just for fun Learn how to Safely surf the Internet on the iPad to do research for school and find interesting facts Use email texting and chatting apps to stay in touch with friends family and teachers Have fun or do group projects for school using FaceTime and Skype video chatting Use the iPad in school and for homework Four chapters of suggestions for grade specific apps 4th through 7th grade to help you excel in the classroom Use the built in Music app so you can rock out to your favorite tunes Watch movies and TV shows from iTunes and videos on YouTube only when homework is done of course Use iPad s built in cameras to take photos and

video of you and your friends Use the Photo Booth app to make them even more interesting or a little crazy Set new high scores playing the tens of thousands of great games available at the App Store Discover great apps for school or just for fun through recommendations in nearly every chapter Parents can feel more secure thanks to special tips that help kids use the Internet safely and responsibly Become your own tech support team by learning to maintain and solve problems with your iPad including tips on restarting backing up and cleaning the iPad Includes coverage of the latest iPad technologies including iOS 5 1 and 4G LTE

Empowering Mathematics Learners: Yearbook 2017, Association Of Mathematics Educators Berinderjeet Kaur,Ngan Hoe Lee,2017-04-12 This book contributes towards the literature in the field of mathematics education specifically on aspects of empowering learners of mathematics The book comprising eighteen chapters written by renowned researchers in mathematics education provides readers with approaches and applicable classroom strategies to empower learners of mathematics The chapters in the book can be classified into four sections The four sections focus on how learners could be empowered in their learning cognitive and affective processes through mathematical content purposefully designed mathematical tasks whilst developing 21st century competencies

Action Research for Classrooms, Schools, and Communities Meghan Manfra,2019-12-20 Action Research for Classrooms Schools and Communities is a core book for action research courses The book also emphasizes using action research to understand community impacts on schools acknowledging the complex ecology linking classrooms schools and the community especially regarding issues fundamental to school reform
