The Sound of Silence Nancy Epton,2024-01-11 The Sound of Silence explores how non verbal communication in film shown primarily through the acting of Ryan Gosling provides an expressive space in which passive audience viewing is made more active by removing the expository signifier of dialogue The German Expressionist era may have been brief but the shadows cast since its end nonetheless loom large The silhouetted cigar wielding men of film noir and their respectively dark doom laden haunts mirror the angst inducing atmospheres of their forebearers while also introducing

the now familiar figure of the silent hero Considering the numerous silent hero actors in film history there s one that stands out in the 21st century like no other Ryan Gosling His later career has seen some of the most iconic silent heroes of the past decade with films such as Drive Only God Forgives Blade Runner 2049 and First Man cementing him as the go to guy for a monosyllabic taciturn and moody hero whose actions speak louder than words This book argues that it is Gosling s expressive capabilities that keep audiences compelled by his performances With the use of non verbal silence combined with its counterbalance sound a more active emotive audience response can be achieved Looking further into this idea through theorists such as Michel Chion and Susan Sontag the book demonstrates that the sound of silence is one of the most meaningful cinematic sounds of all

Sound in the American Horror Film Jeffrey Bullins,2024-07-11 The crack of thunder a blood curdling scream creaking doors or maybe complete silence Sounds such as these have helped frighten and startle horror movie audiences for close to a century Listen to a Universal classic like Dracula or Frankenstein and you will hear a very different soundtrack from contemporary horror films So how did we get from there to here What scared audiences then compared to now This examination of the horror film s soundtrack builds on film sound and genre scholarship to demonstrate how horror perhaps more than any other genre utilizes sound to manipulate audience response Beginning with the Universal pictures of the early 1930s and moving through the next nine decades it explores connections and contrasts throughout the genre s technical and creative evolution New enthusiasts or veteran fans of such varied films as The Mummy Cat People The Day the Earth Stood Still Psycho Halloween A Nightmare on Elm Street Scream The Conjuring Paranormal Activity and A Quiet Place will find plenty to explore and perhaps a new sonic appreciation within these pages

Kulezic-Wilson, 2016-12-14 This book bridges the existing gap between film sound and film music studies by bringing together scholars from both disciplines who challenge the constraints of their subject areas by thinking about integrated approaches to the soundtrack As the boundaries between scoring and sound design in contemporary cinema have become increasingly blurred both film music and film sound studies have responded by expanding their range of topics and the scope of their analysis beyond those traditionally addressed The running theme of the book is the disintegration of boundaries which permeates discussions about industry labour technology aesthetics and audiovisual spectatorship The collaborative nature of screen media is addressed not only in scholarly chapters but also through interviews with key practitioners that include sound recordists sound designers composers orchestrators and music supervisors who honed their skills on films TV programmes video games commercials and music videos *Music, Sound and Filmmakers* James Eugene Wierzbicki, 2012

more reviews of horrible films Roger Ebert awards at least two out of four stars to most of the more than 150 movies he reviews each year But when the noted film critic does pan a movie the result is a humorous scathing critique far more entertaining than the movie itself I Hated Hated Hated This Movie is a collection of more than 200 of Ebert's most biting and entertaining reviews of films receiving a mere star or less from the only film critic to win the Pulitzer Prize Ebert has no patience for these atrocious movies and minces no words in skewering the offenders Witness Armageddon 1998 The movie is an assault on the eyes the ears the brain common sense and the human desire to be entertained No matter what they're charging to get in it's worth more to get out The Beverly Hillbillies 1993 Imagine the dumbest half hour sitcom you've ever seen spin it out to ninety three minutes by making it even more thin and shallow and you have this movie It's appalling North no stars 1994 I hated this movie Hated hated hated hated hated this movie Hated it Hated every simpering stupid vacant audience insulting moment of it Hated the sensibility that thought anyone would like it Hated the implied insult to the audience by its belief that anyone would be entertained by it Police Academy no stars 1984 It's so bad maybe you should pool your money and draw straws and send one of the guys off to rent it so that in the future whenever you think you're sitting through a bad comedy he could shake his head chuckle tolerantly and explain that you don't know what bad is Dear God 1996 Dear God is the kind of movie where you walk out repeating the title but not with a smile The movies reviewed within I Hated Hated Hated This Movie are motion pictures you'll want to distance yourself from but Roger Ebert's creative and comical musings on those films make for a book no movie fan should miss
