Concurrent Engineering Christopher J. Backhouse, Naomi J. Brookes, 1996 The core of the book is a series of case studies written by senior industrialists In each chapter companies that have employed similar approaches to Concurrent Engineering are compared The case studies range from multinationals such as Rolls Royce IBM and Marconi through to smaller enterprises By reference to these real examples executives concerned with evaluating or implementing Concurrent Engineering can see how the most appropriate techniques can be selected and introduced into their own company

The Structure of European Industry H. W. de Jong, 2013-12-01 The Structure of European Industry is a collection of essays on the economic organization of industrial sectors in Europe which may serve either of policy makers in business and in Government and staff and students at Universities The first group increasingly needs a focus on the longer term developments of European industry now that the positive growth effects of the economic integration of the sixties have worn off Restructuring is the current catch word and nobody can deny the necessity and urgency of the task But it has become a day to day affair and there may be a loss of perspective The second group is growing up in an international environment and should be equipped accordingly Many faceted tasks are involved with serving either depending on the problems which differ according to industries And here the bewildering complexity of the European industrial scenery strikes Some of these industries are old fashioned some are new some are national in orientation some have become integrated some have a competitive structure some are cartellized or heavily concentrated some have been interfered with by national Governments others were free from such policing etc Moreover a number of industries show various combinations of these and other facets at the same time

Corporate Governance and Firm Organization Anna Grandori, 2004-09-09 Recent scandals involving large firms in the US and elsewhere have intensified discussion regarding the role and conduct of the corporation The contributors to this book argue that much of this debate has taken too narrow a view of the issue of corporate governance and question some of the key assumptions of economic models Drawing on insights from a variety of fields including management studies organization studies economics and finance political science sociology psychology and legal studies the contributors argue that these models fail to take account of the varied and complex behaviour of actors within the corporation Instead the organizational cognitive and motivational foundations of governance problems and possible solutions are re worked to produce a broader conception of governance The book contains chapters from leading international management scholars including Masahiko Aoki Margaret Blair John Child Alvaro Cuervo Cazurra Bruno Frey Anna Grandori Joseph Lampel Ryon Lancaster William Lazonick Siegwart Lindenbergh Patrick Moreton Margit Osterloh Michael Piore Andrea Prencipe Suzana Rodrigues Mark Roe Giuseppe Soda Steen Thomsen Brian Uzzi Paul Windolf and Todd Zenger *Corporate Governance and Firm Organization* provides an important contribution to the corporate governance debate and will be essential reading for academics and graduate students of corporate governance business and management economics
