

Romanticism

The Art of Faith

The Romanticism movement in Europe happened around 1800AD - 1850AD. Meaning "Romantic" the Romanticism architecture was similar to Roman design with columns and arches, however the paintings and sculptures of this time were very different than Roman style art. Romanticism paintings and sculptures mostly depicted stories from the Bible and therefore decorated many churches across Europe.

The Bishop Reformed Anna Trumbore Jones,2017-03-02 In the period following the collapse of the Carolingian Empire up to the Fourth Lateran Council 1215 the episcopate everywhere in Europe experienced substantial and important change brought about by a variety of factors the pressures of ecclesiastical reform the devolution

and recovery of royal authority the growth of papal involvement in regional matters and in diocesan administration the emergence of the crowd onto the European stage around 1000 and the proliferation of autonomous municipal governments the explosion of new devotional and religious energies the expansion of Christendom's borders and the proliferation of new monastic orders and new forms of religious life among other changes This socio political religious economic and cultural ferment challenged bishops often in unaccustomed ways How did the medieval bishop unquestionably one of the most powerful figures of the Middle Ages respond to these and other historical changes Somewhat surprisingly this question has seldom been answered from the bishop's perspective This volume of interdisciplinary studies drawn from literary scholarship art history canon law and history seeks to break scholarship of the medieval episcopacy free from the ideological stasis imposed by the study of church reform and episcopal lordship The editors and contributors propose less a conventional socio political reading of the episcopate and more of a cultural reading of bishops that is particularly concerned with issues such as episcopal self representation conceptualization of office and authority cultural production images texts material objects space and ecclesiology ideology They contend that ideas about episcopal office and conduct were conditioned by and contingent upon time place and pastoral constituency What made a good bishop in one time and place may not have sufficed for another time and place and imposing the absolute standards of prescriptive ideologies medieval and modern obfuscates rather than clarifies our understanding of the medieval bishop and his world
