The Grant Writing Guide Betty Lai, 2023-01-10 Grant writing skills

are critical for researchers According to author Betty Lai a study of 92 institutions found that 67% listed grant funding as a major criterion for promotion and tenure Yet many scholars do not receive grant writing training Addressing this need The Grant Writing Guide is a concrete roadmap intended specifically for scholars for learning how to write fundable grants This book walks academic readers through steps to generate ideas determine which grants help create in career advancement find the right funder and write in a way that excites reviewers and funders Organized into 14 brief chapters every chapter is designed to build grant writing skills Drawing from interviews with 100 grant writers program officers administrators writers and researchers in every phase of their career the Grant Writing Guide lays out best practices common questions and pitfalls to avoid Important topics covered will include finding available grants generating ideas aligned with one's values furthering one's career goals creating effective pitches talking to program officers completing grant applications and structuring timelines communicating clearly in prose and images and soliciting feedback to strengthen your proposal Chapters will open with stories from successful grant writers about the skill Chapters will then describe and teach the skill Chapters will end with an exercise designed to help researchers develop the skill While this book is intended specifically for academics Dr Lai has strived to incorporate advice and examples that will resonate with women as well as scholars from non traditional backgrounds

THE EXECUTIVE GUIDE TO BUSINESS COMMUNICATION Moin Qazi, 2019-07-17 This book demonstrates how your choice of language can influence your reader The book keeps speed with the latest developments in the field of communication and draws on practices used at reputed business schools like Wharton Kellogg and Harvard It equips managers with skills to navigate the varying needs demands and challenges of their audience with courtesy strength consideration and confidence Apart from its academic grounding which includes explanations of theoretical bases of various concepts the book draws liberally on practical examples that have been culled from actual successful organisational practices It gives you writing secrets used by the world's best business leaders that you too can use to great effect in your own business writing

The Comprehensive Guide for PMP® Certification Kal Jayaswal, PMP and Archana Jayaswal, PMP, CSM, 2019-06-30 Why you need this PMP guide Coverage of the 100% of the exam content Lots of figures and tables for faster preparation ITTO made easy with diagrams and built in text Simple explanations for difficult concepts Synopsis and formulas section for reference before the PMP exam Easy to follow layout 400 sample questions with detailed explanations Full length practice exam Tips for practical project management How to for Microsoft Project MPP application This book is a must have for those preparing for PMP certification It is different than existing books because we believe that PMP preparation can be quick and efficient We have read the existing books and taken the PMP exam and we have found that most books contain unnecessary content Reduce your preparation time There are several books in the market that have pages of painful and irrelevant text that would just be a waste of your time This book has text that is concise and relevant for the exam Figures and tables There are 200 figures and tables in the book When text is needed to explain the figure the text is

embedded into the figure rather than forcing you to read long paragraphs and pages of commentary to find relevant material

Personalized conversational style When possible we use conversational style to make for easier reading

Active learning We believe that learning is best when the reader is involved instead of doing a show and tell

Wherever applicable e g for schedule cost quality risk procurement there are workbook style exercises

Examples You will find lots of examples followed by its underlying concept or generalized step by step procedure

This sequence makes it easier to understand concepts

REVIEW FROM CONTACT 1 I have studied various PMP guides and tutorials in the market But this book is different stands outs and would be the best companion guide to the PMBOK

Difficult concepts are presented in a style that is easy to follow

The content is concise and supported by illustrative figures and tables This will save you from wasting your time on irrelevant or copious content

In my opinion this is the ONLY book you will need to pass the PMP exam

Other printed books and online sites have questions that are easier than the PMP exam and some wrong and answers and explanations

The 400 questions are at the same level of rigor as you will find in the PMP exam

I wish I had this guide when I prepared for the PMP exam

Andrew Anderson PMP Los Angeles CA

How To Write Anything: The Format Of What You Write May Change But The Process Of Writing Anything Remains The Same

Paul Lima,2020-07-06

How To Write Anything The Format Of What You Write May Change But The Process Of Writing Anything Remains The Same

This book is called How To Write Anything and I confess there is some ego involved in the title

But then I ve been a professional writer for over 40 years

As one of Canada s most successful writers and authors I have written hard news articles soft news and feature articles advertising and promotional copy media releases reports and proposals case studies research papers email messages website content tweets blog posts and other online content

I have also written over 20 books on business promotional and online writing and other topics such as writing articles memoir writing and living with Multiple Sclerosis a disease that I have but one that has not prevented me from writing or training

I ve also written a collection of short stories poetry and a couple of plays

So while I haven t written everything I ve written many things

The fact is that you can t read this book and go forth and write anything if you are not familiar with the format or structure of the document that you want to write be it non fiction or fiction

For instance if you want to write a report you do so using the methods in this book

However you have to know how to structure reports

The same is applicable to email social media content articles promotional content case studies reports white papers PowerPoint presentations speeches website content short stories or novels

So some of you reading this book might still have some learning to do

However I suspect most of you know the structure of the documents you want to produce and you will be able to immediately apply the methods outlined in the book to writing any document that you need to write

Microsoft 365 Office All-in-One For Dummies

Paul McFedries,Peter Weverka,2025-03-11
