For as long as I can remember I've known what I wanted to do with my life. Science has always been a passion of mine, and medicine in particular has interested me for some time. Dedicating my life to improving the lives of others is very appealing to me. After Michigan State, I plan on advancing to medical school to become a physician. I believe this program will offer me valuable skills that cannot be taught in the classroom.

Throughout high school and college thus far I have taken a rigorous curriculum and maintained a 4.0 grade point average. During high school I was involved in a physician shadowing program called medical mentorship. In addition, I volunteered at Sparrow Hospital this fall in patient transport. I am very familiar with and comfortable in clinical settings. I am responsible, focused, hard working and easy to get along with. I participated in a Freshman Study Abroad program this summer and thoroughly enjoyed it. Studying in a foreign country was an experience unlike any I've had. The classes were challenging and thought provoking. The city was breathtaking and I met many friends who I still keep in touch with.

Although I plan on practicing medicine in the United States, I believe that studying the differences between the British health care system and that of the United States would benefit me a great deal in the future. It would be a valuable opportunity for me to shadow a British physician, and compare that experience to the clinical exposure I've had in the United States. By participating in this program I hope to eventually combine the best of both worlds into my medical education and eventual practice. I plan to learn valuable skills that will one day make me a better doctor.

scholarship committee was going to favor someone they already knew Sure there were some local scholarships that I know I should have won in which the scholarship committee favored someone else On the other hand there were a couple of local scholarships in which I did win and as far as those state national and foundational scholarships I GOT THAT MONEY JUST WRITE This book is comprised of award winning scholarship essays that I recently wrote during my junior and senior year of high school When my high school counselor emailed to me my first scholarship application I read over the application and saw that I met all of the qualifications Then I saw the requirements and one of them was to write a 1500 word essay I very quickly shoved the application into my math folder and did not think twice about it When I got home from school that evening my mother as she always does asked me if I had homework I told her that I did not have any homework Between you and I I did have homework but I did not want to do it at that time Ok I was untruthful to her but I did share with her that I had received a scholarship application and that I was not interested because I already had too much on my plate She asked to see the document and I gave it to her and went to my room and laid across my bed thinking that I was getting ready to do what I do best take a nap Needless to say she burst into my room and shouted Oh no ma am Get up You gone apply for this scholarship I aint got no money to be paying for college and you definitely don t want to be getting all those loans or having to swing from pole to pole to pay for it To sum up the situation I ended up applying for the scholarship It took me a couple of weeks to get it all together and I must say that the toughest part was writing the essay However once I was finished it was like a weight lifted off my shoulders About a month later I received an email and a letter in the mail reading that I had won the scholarship The best part of this scholarship and several others that I received was that I was given a check with my name on it The check was not sent to the university in which I was planning to attend it was written and given directly to me about a month after I applied for the scholarship I used the scholarship money to purchase the new Air Jordan sneakers that I had been longing for JUST KIDDING I deposited it into my savings account and when I graduated high school I used it to purchase items for college My winning that very first scholarship was the motivational boost that I needed to move forward to apply for many more scholarships After that first triumph I knew that I could do it I started worrying the heck out of my school counselor Every week after that either my mother or I was emailing or asking if she had received any other scholarships in which I could apply Scholarships are the best way for teens especially high schoolers to earn money for their future My advice to you is to apply for as many scholarships in which you qualify to apply for Please do not sell yourself short You can do this You do not have to be an advanced writer that is why you ask at least two people preferably a teacher and another adult or friend who are proficient writers to proofread and assist you along the way like I did IF YOU LIKE MONEY LET ME HELP YOU GET THAT MONEY Write Yourself In Eric Tipler,2024-06-11 Write authentic memorable college essays that will help you get into the right school for you with this guidebook from a veteran college admissions expert Every spring over one million high school juniors embark on an annual rite of passage applying to college And with college

admission rates at an all time low getting into a competitive school is now tougher than ever At the top schools a strong transcript and great test scores will get your application noticed but it s your essays and the personal story that they highlight that will get you admitted But often students don t know where to start Teens fret over topics because they don t know what college admissions officers are looking for They bend over backwards to write what they think colleges want to read instead of telling their authentic story which is what admissions officers actually want in a way that will resonate with their readers They also struggle because college essays which are narrative first person and introspective require a different set of skills from academic expository writing they ve been learning for years in the classroom Seasoned college admissions expert and educator Eric Tipler has seen this firsthand Teens and their parents spend countless anxiety filled hours crafting and refining essays that are often lackluster In *Write Yourself In* Tipler meets students where they are and provides comprehensive actionable advice in a warm and conversational tone He demonstrates how to craft a winning essay one that is authentic vulnerable and demonstrative of qualities like personal growth and emotional maturity Instead of formulas *Write Yourself In* gives students step by step processes for brainstorming outlining writing and revising essays It encourages them to seek out feedback at key points in the process something Tipler has found to be vital to helping students produce their best writing Further the book includes sidebars that teach essential components of good storytelling a secret weapon in the admissions process In addition to the admissions essay *Write Yourself In* also covers the most common supplemental essays on topics like community diversity openness to others viewpoints and why their school is a good fit for the student scholarship essays as well as scholarship essays Tipler includes sections that address current topics like the widespread use of ChatGPT and the discussion of race in the admissions essay a facet of the student s application that will have newfound importance given the Supreme Court decision on affirmative action Written with both the parent and teen in mind *Write Yourself In* is the go to handbook for writing a great college essay
