draws upon the insights of the practice of counter piracy by bringing together academic lawyers and the legal advisers of the main actors in the area EU US NATO UK The book raises fundamental questions about the law and practice of international law are the rules of the international law of the sea on piracy still relevant To what extent has the shared interest of international actors in tackling piracy given rise to common practices Do the interactions among the actors examined in the book suggest fragmentation or unity of the international legal order Is it premature to view these interactions as signalling the gradual emergence of global law in the area This common analytical frame of reference is underlined by the concluding part which draws these threads together The book will be of interest to legal scholars political scientists and international relations theorists as well as decision makers and students of law politics and international relations

Human Rights and Law Enforcement at Sea Anna Petrig, 2014-10-30 Law enforcement at sea has become an increasingly important tool for combating transnational crime Such law enforcement operations are commonly directed by multinational missions composed of military rather than police forces and are often carried out in maritime areas not subject to national jurisdiction Because of these characteristics maritime law enforcement operations touch upon many unresolved human rights issues In the present study counter piracy operations off the coast of Somalia and in the Indian Ocean serve as the

quintessential example of how law enforcement measures taken at sea may fall short of international human rights standards. An unprecedented number of national and multinational missions have been deployed to counter the phenomenon of piracy off the coast of Somalia and in the region. Their mandate includes the arrest, detention and transfer for prosecution of piracy suspects. The book at hand examines the procedures pertinent to the decision whether to release piracy suspects, prosecute them in the seizing State or transfer them to a third State and the detention regime pending such decisions. The study provides a critical analysis of the compatibility of these procedures with international law, first and foremost human rights law. Using piracy as an example, it demonstrates that the characteristics of national and multinational law enforcement at sea may lead to a deviation from certain human rights standards that the States in question readily accept and apply in their land-based territorial law enforcement operations. At the centre of the analysis are two unique case studies which provide insight into the arrest, detention and transfer procedures in both a multinational context and a purely interstate setting. This work is a valuable contribution to legal scholarship dealing with the human rights dimension of maritime law enforcement operations. It is a useful, timely and innovative resource for both academics and legal practitioners alike or any person interested in the applicability and scope of human rights norms in the maritime context.

Shipping Interdiction and the Law of the Sea Douglas Guilfoyle, 2009-08-13. In this comparative study of shipping interdiction, Douglas Guilfoyle considers the State action of stopping, searching and arresting foreign flag vessels and crew on the high seas in cases such as piracy, slavery, drug smuggling, fisheries management, migrant smuggling, the proliferation of weapons of mass destruction and maritime terrorism. Interdiction raises important questions of jurisdiction, including how

permission to board a foreign vessel is obtained whether boarding State or flag State law applies during the interdiction or whether both apply and which State has jurisdiction to prosecute any crimes discovered Rules on the use of force and protection of human rights compensation for wrongful interdiction and the status of boarding State officers under flag State law are also examined A unified and practical view is taken of the law applicable across existing interdiction regimes based on an extensive survey of state practice
