hands on experience with life in an estuary Selecting resources to teach elementary school science can be confusing and
difficult but few decisions have greater impact on the effectiveness of science teaching Educators will find a wealth of
information and expert guidance to meet this need in Resources for Teaching Elementary School Science A completely
revised edition of the best selling resource guide Science for Children Resources for Teachers this new book is an annotated
guide to hands on inquiry centered curriculum materials and sources of help in teaching science from kindergarten through
sixth grade Companion volumes for middle and high school are planned The guide annotates about 350 curriculum packages
describing the activities involved and what students learn Each annotation lists recommended grade levels accompanying
materials and kits or suggested equipment and ordering information These 400 entries were reviewed by both educators and
scientists to ensure that they are accurate and current and offer students the opportunity to Ask questions and find their own
answers Experiment productively Develop patience persistence and confidence in their own ability to solve real problems The
entries in the curriculum section are grouped by scientific area Life Science Earth Science Physical Science and
Multidisciplinary and Applied Science and by type core materials supplementary materials and science activity books
Additionally a section of references for teachers provides annotated listings of books about science and teaching directories
and guides to science trade books and magazines that will help teachers enhance their students science education Resources
for Teaching Elementary School Science also lists by region and state about 600 science centers museums and zoos where
teachers can take students for interactive science experiences Annotations highlight almost 300 facilities that make
significant efforts to help teachers Another section describes more than 100 organizations from which teachers can obtain
more resources And a section on publishers and suppliers give names and addresses of sources for materials The guide will
be invaluable to teachers principals administrators teacher trainers science curriculum specialists and advocates of hands on
