Research Del Loewenthal, Angela Abela, 2025-09-29 This book presents contemporary studies in qualitative psychotherapeutic research examining their effectiveness in developing psychotherapeutic innovation and imagination There is a focus on phenomenology particularly given the growing prominence of interpretative phenomenological analysis IPA The book explores the tension between different forms of therapeutic knowledge theoretical explicit knowledge practice derived explicit knowledge and the crucial yet elusive tacit knowledge that emerges through clinical experience While qualitative research methods attempt to transcend the limitations of quantitative approaches and access the communities of practice where tacit knowledge resides the book questions their effectiveness in this pursuit It argues that although phenomenological approaches offer valuable insights into both explicit and tacit dimensions of therapeutic practice their increasing psychological orientation rather than adherence to philosophical foundations may ultimately constrain psychotherapeutic innovation and imagination This volume will appeal to psychotherapists clinical psychologists qualitative researchers in mental health and graduate students in psychology and counselling It addresses key subject areas including psychotherapy research methodology qualitative approaches in mental health IPA applications philosophical underpinnings of therapeutic knowledge and the ongoing debate around evidence based practice in psychology Academics researching psychotherapy and practitioners seeking to understand knowledge development and innovation in therapy will find this work particularly valuable The chapters in this book were originally published as a special issue of European Journal of Psychotherapy and Counselling and are accompanied by an updated Introduction and a new Endnote *Guide to Equine Assisted Therapy* Yuval Neria, Prudence W. Fisher, Allan J. Hamilton, 2025-02-12 Approximately one in five adults and one in seven children and youth suffer from mental health disorder over their life span Yet available treatments for mental health problems are only moderately effective and about half of those who need treatment are not benefitted by current treatments and many don't even seek them Equine assisted therapy is a novel experiential treatment approach showing significant promise for adults children and youth across a range of mental health problems These treatments use a horse or horses to facilitate communication and mindful awareness of thoughts emotions and behaviors in an experientially oriented approach via groundwork or riding Interactions with horses have shown to foster emotional regulation self confidence reflection and insight by which well being is facilitated The current book describes the rationale for these treatments add to the knowledge about recent progress in applying them to posttraumatic stress disorder PTSD anxiety attention deficit hyperactivity disorder ADHD and more and analyze the nature of the bonding between humans and equines which makes these relationships so therapeutic and healing
